Second Week of Victory Loan

Another \$2,500,000 Must Be Raised in Victoria

The second week of the Victory Loan started today, with Greater Victoria over the half-way mark in its drive for \$5,400,000.

When figures were tabulated Saturday evening it was found \$2,796,600 had been subscribed in Greater Victoria during the first week of the campaign.

These figures divided as follows: Victoria City \$1,366,950, Oak Bay \$550,000, Duncan \$330,000, Esquimalt \$134,650, Saanich and Gulf Islands \$414,000.

Oak Bay is leading, with 63.4 per cent of its total collected in the first week. Duncan was next with 55 per cent and Victoria in third place with 50.6 per cent. Esquimalt collected 44.8 per cent of its total and Saanich 41.4 per cent.

Across Canada in the first week 254,237 persons and firms invested \$276,222,800 in the \$600,000,000 loan.

Summerside, Prince Edward Island, is leading all Canadian cities, with subscriptions of \$220,750, or 90 per cent of its quota. Toronto sold bonds worth \$58,188,000 of a \$180,000,000 quota.

\$10,000,000 BOND

The second week started well, with the Mutual Life Assurance Company investing \$10,000,000.

Other large week-end subscribers were National Life Assurance Company \$4,000,000 and Dominion Tar and Chemical Company \$1,000,000, Burns and Company (Calgary) \$250,000, Goodyear Tire and Rubber Company \$300,000, Canadian Celanese Limited \$600,000, Canadian Cotton Limited \$500,000, L. G. Beaubien and Company \$600,000, Harry F. McLean, Oakville, Ont. — personal and on behalf of companies under his control — \$500,000; United Corporation Limited (Montreal) \$675,000.

British Columbia today went over the \$26,000,000 mark of its \$60,000,000 quota. Vancouver City subscribed \$4,500,000 of its total.

Archie Higgs, unit organizer for Oak Bay, reported a veteran of the 1914-18 war had turned over his \$20 monthly pension to the government, and so could not buy Victory Bonds. The veteran produced a letter from Finance Minister Halsey, thanking him for turning back his Dominion government pension.

BOUGHT THREE TIMES

Dr. James Cattermole, a visitor here from eastern Canada, bought \$20,000 worth of bonds in Victoria. It happened this way—a canvasser approached him at the Empress Hotel. He said he bought a \$10,000 bond before he left home. However, the canvasser talked so convincingly Dr. Cattermole placed an order for another \$10,000 bond. When the canvasser left, Dr. Cattermole thought things over again and then walked to loan headquarters and placed another order for a third \$10,000 bond.

3,000 U.S.T. Troops Smash Strike; Bayonets, Gas Open Plant

Associated Press
Production was resumed today at the North American Aviation Company's plant at Inglewood, near Los Angeles, its officials announced this afternoon.

Earlier President Roosevelt had been informed in Washington that the strike virtually had been broken.

The word came from Lieut.-Col. Charles E. Branshaw, on duty at the plant. The plant had been

taken over by the army during the forenoon.

Reporting to Robert P. Patterson, Under-Secretary of War, who relayed word to Mr. Roosevelt, Colonel Branshaw said he expected production to be practically normal by tomorrow. The plant has orders for \$196,000,000 of war planes.

Stephen Early, Presidential Secretary, said the President was "delighted" at the news from the coast. Branshaw reported, Early said, that 2,000 members of the day shift were back at work, nearly half the total on that shift.

and that the number was "steadily increasing."

Earlier this morning 3,000 U.S.T. troops, bayonets and machine guns drawn, took over the North American Aviation plant under presidential order after two brief riots in which tear gas bombs were hurled between police and a C.I.O. picket line, 1,000 strong.

Six persons were taken to the Venice hospital after fights between the pickets and workers who tried to enter the plant. Strikers generally yielded to the troops who advanced on the big plane factory in long skirmish lines.

3 Bayoneted Strikers Say

Three men were reported by C.I.O. strikers to have been bayoneted by United States troops.

A strike captain, Cal Clements, was cut seriously enough to warrant treatment, and the others were slightly wounded, the C.I.O. first aid tent officials said.

The troops were greeted with cheers by the lines of about 1,600 workers across the road from the plant's main entrance, who had been prevented from entering the struck plant by disorders.

The strike entered its fifth day with some of the 12,000 workers entering the plant in response to a government request for the resumption of plant operations.

Gas Bombs Thrown At Pickets

Earlier, tear gas bombs were hurled against the pickets shortly after Mayor Fletcher Bowron had addressed 800 workers at one of the big gates and told them: "If you want to go back to work you are going to have the opportunity to do so." The bombs were tossed from a wing of the big plane factory and succeeded in splitting the picket lines for a short time. Some of the bombs were tossed back against the building before they exploded.

After retreating for some dis-

tance, however, the pickets came back and reformed their lines. At Mayor Bowron's order, police lines were formed on two roads leading to the main gates of the plant, with about 200 officers succeeding in clearing both thoroughfares for workers to get up to the gates.

Inspector Beaten By Strikers

John Van Goor, an inspector of aircraft, was severely beaten about the head as he tried to dash through the picket line. Two other workers tried to crash the line by speeding toward a gate in their automobile, but the machine was overturned.

Twenty-five minutes after the first disorder, quiet was restored when word passed that "the troops are coming."

The motor convoy in its approach to the plant, was augmented by two marching columns approaching from another direction.

The foot troops immediately took up positions along the field opposite to the North American plant.

Pickets moved out of the way of the troops, and placards were raised reading: "Welcome army. Keep out the scabs."

Demand Increase In Wages

The strikers are demanding a minimum of 75 cents an hour, an increase of 25 cents over the present wage, and an increase of 10 cents an hour for all workers now paid 75 cents an hour or more.

The dispute has been in progress for several weeks. The strike order went into effect last Thursday, called by local representatives, while C.I.O. leaders were in Washington in conference with the mediation board. It had been postponed twice at request of the mediation board.

Leading up to the move of the troops an order was signed by

President Roosevelt in Washington today.

In a statement accompanying the order, Mr. Roosevelt said:

"Continuous production in the Los Angeles plant of North American Aviation, Inc., is essential to national defense. It is engaged in the production of airplanes vital to our defense and much of the property in the plant is owned, directly or indirectly, by the United States. Production in this plant has ceased because of a labor dispute.

"Conciliation was resorted to and efforts at conciliation failed. The dispute was then certified by the Secretary of Labor to the National Defense Mediation Board.

"The course of mediation has now been interrupted in violation of an agreement entered into by the bargaining representatives of the workers to continue production during the course of the mediation. Full stoppage of production has resulted. This has created a situation seriously detrimental to the defense of the United States.

"Because of this situation, as President and commander-in-chief of the armed forces of the United States, I have determined that this plant must be reopened at once. I have therefore directed that the Secretary of War shall immediately take charge of the plant and remain in charge and operate the plant until normal production shall be resumed.

Rights Protected By Government

"Our country is in danger and the men and women who are now making airplanes play an indispensable part in its defense. I call upon the workers to return to their jobs, with full confidence in the desire and ability of this administration to protect their persons and their interests.

I have an abiding confidence in the loyalty and patriotism of the American workers and I am sure that they will seize this opportunity to co-operate in the national interest. Their fundamental rights as free citizens will be protected by the government and negotiations will be conducted through the process of collective bargaining to reach a settlement fair and reasonable to the workers and to the company. The company already has stated that any such settlement will be retroactive to May 1.

"The army has been directed to afford protection to all workers entering or leaving the plant, and in their homes."

Order Telephoned From Washington

The order was transmitted to the army officers in command of troops at the plant by Robert P. Patterson, Under-Secretary of War, by long distance telephone from the chief executive's study in the White House.

The President himself had talked to the commander, Lieut.-Colonel Charles E. Branshaw, the White House said, and Branshaw had recommended that the troops take over.

Also present in Mr. Roosevelt's study were Sidney Hillman, associate director of the Office of Production Management; Attorney-General Jackson, Harry L. Hopkins, supervisor of the Lease-Lend program, and Stephen Early, presidential secretary.

Hillman and the others agreed, Early declared, that the issuance of the order was necessary if the plant was to open and operate because the workers were willing to return to work and seemed hesitant to do so unless given protection by the army.

Lt.-Col. Branshaw, Early added, had expressed the opinion that it was necessary to use the army because the situation was "beyond control of the Los Angeles police."

Final Bulletins

Roads Blasted

VICHY (AP)—It was reported here tonight that Vichy forces have blown up sections of the coastal road leading from Palestine through Acre and Tyre to the Lebanese capital, Beirut.

Alcohol in Motors

CANBERRA (AP)—Federal treasurer Arthur W. Fadden announced today he is prepared to recommend to the cabinet legislation compelling use of power alcohol which can be blended with gasoline.

Expense Allowance Inquiry Subject

OTTAWA (CP)—Inquiries of the auditor-general in respect to expense allowance to Gladstone Murray, Canadian Broadcasting Corporation general manager, were revealed in a letter tabled in the Commons today.

An earlier return by Munitions Minister Howe, in charge of the CBC, had shown that the matters referred to by the auditor-general had been adjusted to the satisfaction of all.

Debate Blocked

WASHINGTON (AP)—Objections by Republican Leader McNary of Oregon, and Senator La Follette, Progressive, Wisconsin, blocked consideration in the Senate this afternoon of legislation which would authorize the government to take over defense plants tied up by strikes. It may come up tomorrow.

Nazis at Rhodes

CAIRO (AP)—Large concentrations of German forces on Rhodes and other Dodecanese Islands, Axis-held stepping stones to the Middle East, and departure of troop-laden ships from German-occupied Greece, were reported tonight in a telegram "from a good source" to the independent French news agency here.

Acts on Strike

OTTAWA (CP)—Labor Minister McLarty said this afternoon he had turned over to the justice department for action the case of a strike of more than 600 employees in two Canadian General Electric plants in Toronto.

Mr. McLarty said a final warning to the striking men, urging them to report for work by 1 p.m., E.D.T., today or become liable to government action, had gone out from the labor department during the week-end.

Tyre Taken in Near East Drive, Syrians, French Flock to Allies

Canadian and Associated Press

In Vichy the Petain administration admitted tonight its forces in Lebanon had withdrawn behind the age-old coastal town of Tyre in order to take up defensive positions along the river Litani against a secondary British attack directed toward Beirut, Lebanese capital.

Earlier the British Middle East Command at Cairo had stated in a communique: "The penetration of the Allied forces in Syria is progressing. "By this morning they were beyond Tyre and later effected a crossing of the river Litani. On the right they had advanced beyond the general line Ezraa-Sheikh-Miskine-Kuneitra."

This line, at its deepest point, Kuneitra, is about 25 miles within Syria* from the Trans-Jordan frontier. It lies to the west of the Jebel el Druz region.

150 Nazi 'Chutists' Taken By Allies

A Reuter's news agency dispatch from Cairo today said the capture of 150 German parachute troops, including a colonel, by Allied forces in the Syrian operations had been reported.

Reuter's quoted the Free French "radio Levant" as authority for the report. This station's announcer said the Syrian populations were welcoming the Allies enthusiastically in the areas already occupied and that French troops were falling into line with the advancing British and Free French columns.

Authoritative sources in London earlier had stated that converts from the Vichy cause swelled the ranks of the British and Free French which captured Tyre and drove to a point about 40 miles from Damascus and Beirut.

Reports to London from the fighting zone were quoted, indicating half-hearted resistance by

the defenders of French-mandated Syria and Lebanon. These reports contrasted with a Beirut communique which claimed there was fierce resistance.

In Cairo British headquarters announced the Royal Air Force and the Royal Australian Air Force "gave continuous support to our troops."

The advance marked by capture of Tyre (also called Sour) was that of the coastal column pointed toward Beirut. A part of this same force was reported to have entered the village of Merdjayoun, about 40 miles southwest of Damascus, capital of Syria, and equidistant south of Beirut. Tyre is midway between Haifa, Palestine and Beirut.

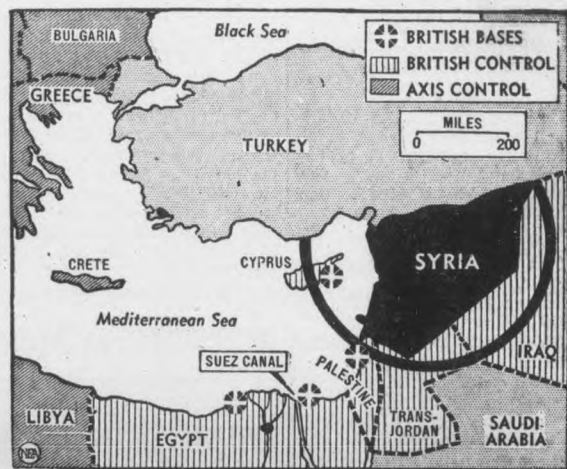

Little was known of a third spearhead thrust up the valley of the Euphrates from neighboring Iraq and pointed toward Deir el Zor, important outpost nestled in the eastern Syrian desert about 250 miles northeast of Damascus.

Military circles in London said the operation—which pitted Frenchmen against their former brothers-in-arms—was one of the most important of the war because of its vital bearing on the expected Axis attack on the Suez Canal.

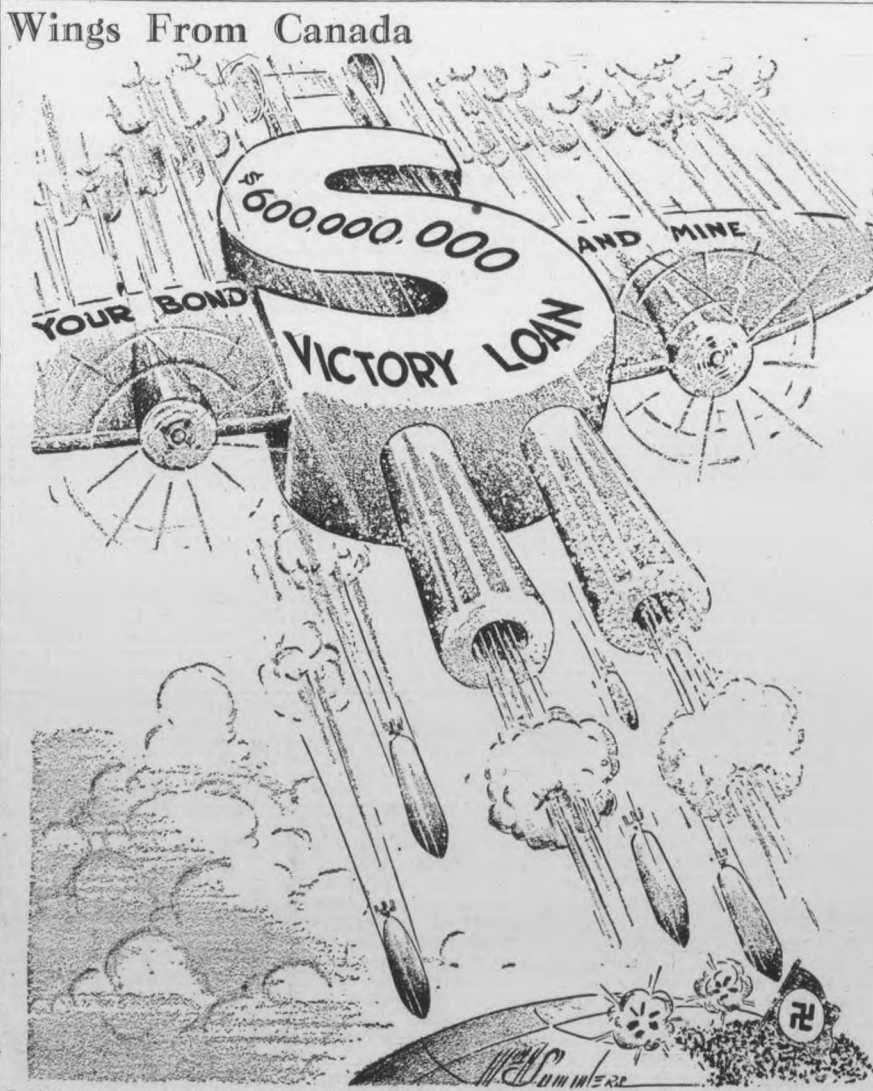

Jerusalem dispatches said Allied columns advancing from Palestine and Trans-Jordan—the Vichy government estimated their strength at 20,000 men—were pushing the French army of approximately 45,000 troops in the mandated areas back wherever they met and R.A.F. headquarters in Cairo said British planes were encountering little opposition.

Iraq Orders Italians Out

Dispatches reaching Vichy from Baghdad said today that Iraq has broken off diplomatic relations with Italy and that Italians in Iraq had been ordered to leave the country within 24 hours.

NEWEST BATTLEFIELD—Syria attracts the eyes of the world today. Speed is the chief factor in the Free French-British strategy. Still taking orders from Vichy are Gen. Weygand (left below) commander of French forces in north Africa, and Pierre Boisson (right), "defender of Dakar," but as yet they have launched no moves in connection with the Syrian operations.

1,200 CAPTURED IN ETHIOPIA

NAIROBI, Kenya Colony (CP)—Another 1,200 prisoners have been taken by the British forces in the continuing advance against Italian remnants in southwestern Ethiopia.

An army communique today said 200 Europeans and 1,000 Eritreans, as well as 20 army trucks, were taken by British and Imperial forces which had crossed the Omo River at two places.

These raised the total of prisoners taken in this drive to 5,200.

(A communique issued in Rome today said intense fighting was going on in the Gallo Sidamo region of Ethiopia and artillery had been in action on both sides in a fight in the Gondar zone. On the North African front Italian artillery was reported to have shelled two steamers entering the harbor at Tobruk, Libya, in an effort further to cut off besieged British forces there. The high command said British bombers raided Bengazi, Derna and Tripoli.)

BODY OF EX-KAISER LAID IN GRAVE

DOORN, German-occupied Netherlands (AP)—The body of former Wilhelm II of Imperial Germany was buried at noon today with rites he had arranged 40 years ago, when he chose even the Bible verses to be read.

He died here last Wednesday at the age of 82, after almost 23 years of exile following his flight from Germany in the last days of the first Great War.

Rev. Bruno Doehring, once court preacher, officiated at the rites.

The coffin was entombed in a tiny chapel on the Doorn manor grounds.

By a quirk of fate, an Austrian, Arthur Seyss-Inquart, German commissioner in the Netherlands, gave the Nazi salute to the late ruler on behalf of the Austrian Hitler.

During the services the black and white flag of the Hohenzollern house fluttered alone. No Nazi flag was displayed, but wreaths from Hitler and various branches of the German armed forces bore the Swastika.

Many of Wilhelm's generals, headed by Field Marshal August von Mackensen, attended the services. Members of the family who attended included Princess Hermine, the former Kaiser's second wife; former Crown Prince Friedrich Wilhelm, now head of the house of Hohenzollern, and other sons and grandsons and their wives.

U.S. ARMY SEEKS MISSING BOMBER

SALT LAKE CITY (AP)—The U.S. Army Air Corps today sought word of a B-18 twin-motored bomber that left here yesterday afternoon with a crew of six on a nonstop flight to Chicago.

The ship was due at the Chicago municipal airport about 9 last night.

Aboard were Capt. D. N. Moth-erwell of the 16th Reconnaissance Squadron as pilot; Lieutenants T. F. Holsteen, J. V. Gallagher and L. K. Harvey, and Staff Sergeants D. E. Hawley and T. McGuran, all stationed at Boise, Idaho.

Showers and thunderstorms slashed across their route, with the worst flying weather indicated east of Cheyenne during the period the ship would normally have been in that area.

Commercial lines, however, had little difficulty in making schedules throughout the day and night.

Admiralty Announcement

Cruiser, 2 Destroyers Listed Lost at Crete

LONDON (CP)—Loss of the anti-aircraft cruiser Calcutta and the destroyers Hereward and Imperial during the evacuation of Crete was announced tonight by the Admiralty.

The Calcutta was a 4,200-ton ship with a complement of 400 men; the Imperial was of 1,370 tons and the Hereward 1,340 tons, each carrying normally about 145 men.

The communique said the Hereward was last seen heading toward the coast after having been damaged during an Axis air attack. It added that the Italian high command had announced 229 survivors from the

ship had been landed and were prisoners of war. (During the evacuation the destroyers carried many more than their normal crews.)

The communique said the commander-in-chief of the Mediterranean fleet had reported that "when the operation of evacuation from Crete was completed just over 17,000 men had been taken off the island."

The Imperial, the Admiralty said, had to be sunk (presumably by British fire), after heavy damage from the air.

These losses brought to 10 the number of cruisers lost in the war and to 48 the number of destroyers sunk.

Day in Ottawa

M. J. Coldwell, acting C.C.F. leader, warned the House today against activities of Communist and Nazi sympathizers in Canada.

He supported Defence of Canada Regulations changes recommended by a special Commons committee, and said Canadians who believe in political and economic democracy have "a tremendous stake in this war."

While he still objected to those principles in the regulations which deprived persons detained of the customary rights of trial and appeal under normal civil law, he believed the rigorous provisions made were necessary for safeguarding the state.

The report of the committee, made public last week, was presented for adoption by the chairman, Fisheries Minister Michaud.

The motion to adopt the Defence of Canada Regulations report preceded the question period and occupied the House throughout the morning.

JAP WHEAT DEAL

Alfred Bence (Con. Saskatchewan), supported the recommendation, but warned against too lightly curtailing the cherished democratic rights of the people on the basis of wartime necessity.

E. G. Hansell (N.D.-MacLeod) referred to the wheat shipment being made to Japanese-occupied China, and declared that sort of thing was "not good for Canada."

The government's explanation of that deal was not satisfactory to the great majority of Canadians and would make for disunity in the Dominion, Hansell said.

SUBVERSIVE PUBLICATIONS

Michaud in moving adoption of the committee report, said, one change would provide a review for any ruling against publications considered subversive by the Secretary of State where objection is taken by the publisher.

In such cases the case may be reviewed by a committee consisting of a person who holds or has held high judicial office.

Steel Mill Offer For B.C. Tabled

OTTAWA (CP)—Offer of the Dominion Bridge Company to move its rolling mill from Calgary to Vancouver to utilize steel scrap was contained in a letter tabled in the House of Commons today for C. E. Johnston, New Democracy, Bow River, Alta.

Johnston last week protested against moving the mill to Vancouver.

The company's offer, dated April 14, said it was prepared to move the mill at its own expense on the basis that the government policy on scrap be such as to ensure a continuous supply of steel scrap on the coast of from 30,000 to 40,000 tons a year, and that the government permit the complete write-off of the new capital invested against the mill profits on the consolidated profits of the company, within a period of not more than three years, "preferably two years."

REAFFIRM STAND FOR CONSCRIPTION

CALGARY (CP)—The Canadian Legion is in favor of conscription of manpower and wealth to carry on efficiently Canada's war effort, Alex Walker of Calgary, Dominion president of the Legion, said in an address opening the Alberta provincial command convention here today.

"Meanwhile, as you know, a recruiting campaign is in progress," Mr. Walker said. "The Legion has pledged itself to assist in this campaign, and is doing so in every province of Canada."

"Suggestions have reached me that this implies a weakening or modification of the Legion's policy in regard to national mobilization."

Additional provisions for the hearing of objections by persons interned under the regulations are also recommended.

NATURALIZATION

Laws of naturalization and deportation were referred to the committee, but it had not the time to give them exhaustive study and suggested the two matters be submitted to a special committee at the next session of Parliament. Naturalization and deportation laws required revision, the committee thought, but they were not invoked to any great extent at the present time and could be left until a later date for study, Mr. Michaud said.

ILLEGAL STRIKES

Mr. Coldwell said the changes were all the more needed in view of recent orders-in-council such as that of last Friday which makes coal mining in Canada an "essential service" under the Defence of Canada Regulations.

He suggested order might well have been raised in the House last week when labor matters were being discussed. By that measure, designated to empower civil authorities to deal with illegal strikes and slowdowns under Defence of Canada Regulations, the government might "play into the hands of some persons whose real purpose may be to cause internal strife," said Coldwell.

"REDS" ON PRAIRIES

Coldwell said "Communist" organizations were active among farmers in western Canada and in Canadian labor organizations.

"Has the honorable gentleman passed the information he has on to the proper authorities?" asked the Conservative House Leader, R. B. Hanson.

"The authorities know what is going on," said Coldwell. "It is not my function as a member of Parliament to act as a special agent, but where I have direct knowledge of sabotage or anything of that kind I shall deem it my duty to inform the authorities."

"Nothing could be farther from the truth. We have made our representations to the government on this subject vigorously and consistently, and will continue to do so. Meanwhile, we must deal with situations as they arise."

"The nation now being at war, this convention reaffirms the principles of the resolution passed at Niagara Falls in 1932, reaffirmed at Ottawa in 1934 and again at Fort William in 1938, and calls upon the government to take immediate steps to conscript the manpower, wealth, national resources, business, industrial and other institutions so that we may wage war with the full vigor of the nation."

McNaughton Calls For Recruits

OTTAWA (CP)—Lt. Gen. A. G. L. McNaughton, general officer commanding the Canadian Corps in England, will join the drive for 32,000 recruits for the Canadian active army in a broadcast to Canada soon, defence headquarters announced today.

Arrangements are being completed with the CBC to carry Gen. McNaughton's appeal throughout the Dominion. The date and time of the broadcast will be announced shortly.

Campaign officials said recruiting returns last week continued to increase steadily and numbers actually accepted last week were "considerably in excess" of the previous week.

"Too few people fully realize why there is an urgent need for additional men at this time," a Defence Department statement said. "This is understood as far as the mobilization of new formations is concerned... what is not understood, however, is the steady monthly need of reinforcements for units already overseas."

C.M.A. Head Speaks

Urges Wages Be Controlled

SEIGNIORY CLUB, Que. (CP)—Emphasizing the part industry is playing in Canada's war effort by enumerating the many war products now being manufactured in Canadian plants, Harold Crabtree of Montreal, in his presidential address at the opening of the 70th annual general meeting of the Canadian Manufacturers' Association today, declared it was indeed fortunate that Canadians, since Confederation, had built up an industrial system capable of such a contribution.

"This great system," he said, "was not developed in a night. It is the result of imagination, thought, intelligence, ability, industry and perseverance of several generations of Canadians who believed tenaciously, in the face of many discouragements, that Canada should and could become a great industrial country."

NEW FIELDS

Mr. Crabtree claimed the foundation of skilled management and employees and experience established in the past was enabling industry to undertake experiments in making entirely new and very complicated articles never before made in Canada. But while Canadians were making new records in industrial production, he warned this should not be viewed with complacency. More could be done, and there yet remained a considerable amount of unused industrial capacity.

CONDUCTING SURVEY

"There are still many firms in Canada which can put into operation a larger proportion of their employees, machines and equipment in making articles for war," Mr. Crabtree pointed out. "We, in co-operation with the Canadian Chamber of Commerce and by special request of the Department of Munitions and Supply, are completing an industrial survey of Canada in order to assist the department to increase still further the national output of war materials."

CONTROL OF COSTS

Turning to industrial relations, Mr. Crabtree made a strong plea for the holding down of costs. Profits, he declared, had been reduced to a minimum by government taxation. Many companies were working for the government for small management fees.

It was obvious that increased costs could only be paid for by increased prices. Wages and salaries constituted the chief part of industrial costs. He recommended the government for action taken through the establishment of the Wartime Prices and Trade Board, the Foreign Exchange Control Board and other methods of control. These had been successful to a gratifying extent since, after a year and a half of war, the cost of living, according to government figures, had risen only about 7 per cent.

'SINISTER CHANGE'

Until a few months ago relations between employers and employees in regard to wages and conditions of labor were, on the whole, satisfactory.

"During the past few months," he continued, "a sinister change has appeared. Demands for large increases of wages and control of plant operations have multiplied, accompanied by applications for boards of conciliation under threat of strikes."

Increased wages in war production would have to be added to the prices paid by the Canadian and British governments for munitions, said Mr. Crabtree, and there would have to be similar increases in the cost of goods used by the civilian population or exported to other countries. Farmers were already apprehensive.

STERNER MEASURES

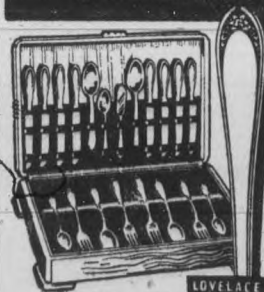

The question of what industrial wages were to be paid, was, under war conditions, now largely in the hands of the government, declared Mr. Crabtree. The great majority of industrial employees were loyal and reasonable citizens.

The small minority who would not respond to a patriotic or reasonable appeal should be dealt with firmly by the government. Existing laws which permitted or encouraged frivolous demands for boards of conciliation and unjustifiable demands for higher wages, should be amended. Strikes and lockouts in plants engaged on war production should be prohibited for the duration of the war, Mr. Crabtree said.

Dealing with the growth of plants, Mr. Crabtree said that "one Canadian factory, which began production before the war and is now manufacturing much ahead of schedule, will soon have the largest output of any automatic gun plant in the world."

Polish Warship First To Engage Bismarck

LONDON (CP)—The Polish destroyer Piorun was the first warship actually to sight the German battleship Bismarck and moved in immediately to engage the great craft on the day she was sunk, May 27, an Admiralty announcement now discloses.

The destroyer, under Commander Eugeniusz Plawski, came under heavy fire from the Bismarck's main and secondary armament.

Capt. P. K. Vain, commander of the Allied destroyer force, in a message to Plawski said, "Many congratulations that you were the first ship of our forces to sight the enemy. I hope you will be with me next time I go into action."

Hitch in Talks Of Nazis, Russians

LONDON (CP)—A Reuter's news agency dispatch from Stockholm said the Berlin correspondent of the Social Democratic newspaper that "evidently something has gone wrong with Russian-German negotiations."

He was quoted as saying German political circles there were betraying anxious interest in the flight of the British ambassador, Sir Stafford Cripps, from Moscow to London to make a report to his government.

A Reuter's dispatch from Ankara Saturday said German troops were moving from Bulgaria into Moldavia, the eastern province of Rumania, and taking up positions along the Russian frontier.

(A Hungarian radio report heard in New York by the NBC said considerable railway traffic in Rumania had been canceled due to the "necessary transport of goods" not only on railroads leading to the Black Sea port of Constanta, but also into Moldavia.)

(The radio said Rumania was taking unusual military measures, especially in Moldavia, where troops were being mobilized and air raid shelters built.)

2 Worlds War Mussolini Says

ROME (AP)—Mussolini declared today that the war "has now assumed the character of a war between two worlds" and is now at "one of its most decisive moments."

His statement appeared in the navy ministry's paper "Prore Armate," on the eve of Italian Navy Day, which coincides with the first anniversary tomorrow of Italy's entry into the conflict.

HOW TO RELIEVE PILE TORTURE QUICKLY AND EASILY

If you are troubled with itching piles or rectal soreness, do not delay treatment and run the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and proper treatment should be secured at once.

For this purpose get a package of Hem-Roid from Modern Pharmacy and Cunningham Drug Stores or any druggist and use as directed. This formula which is used internally is a small, easy to take tablet, will quickly relieve the itching and soreness and aid in healing the sore tender spots. Hem-Roid is pleasant to use, is highly recommended and it seems the height of folly for any one to risk a painful and chronic pile condition when such a fine remedy may be had at such a small cost.

If you try Hem-Roid and are not entirely pleased with the results, your druggist will gladly return your money.

HOW TO GET A \$100 LOAN WITHOUT ENDORSERS

You can borrow \$100 on your own signature, if you can pay back \$7.78 a month. A quick, private way to borrow

CAN you make good use of extra funds this month? Household Finance offers a simple way for the employed man or woman to get cash for an emergency. You need no endorsers or guarantors.

We make your loan on your own signature (husband and wife sign together). No need of asking friends or fellow-workers to sign with you. Nor do we question others about your credit. Loans are made on furniture or car. But we attach far more importance to character and regular income than to the value of security.

War Financing Sound

Canada Lays Groundwork For Postwar Conditions

DETROIT (CP)—Hon. J. L. Isley, Canadian Minister of Finance, said in an address today that in financing the war the Dominion "is following methods which are sound and which, though severe in their immediate and direct incidence, will leave Canada in a financial condition to take advantage of whatever opportunities the post-war period will bring forth."

In an address to the National Association of Insurance Commissioners, Mr. Isley referred to the Hyde Park agreement between President Roosevelt and Prime Minister King of last April 20 as the basis for arrangements for largely overcoming a Canadian deficit in exchange payments to the United States and of closer co-ordination of the defence production programs of the two nations.

DEBT QUESTION

"This economic co-operation... enables us to fight a total war without becoming greatly encumbered with increased foreign debt," he said. "That will help to keep Canada economically and financially sound in future years. We believe such strength on Can-

ada's part is in the best long-run interest of the United States."

"In the development of a war economy Canada has had to start pretty well from scratch," Mr. Isley said. He told how it had been necessary to establish war industries where there had been relatively few, comparable peace-time industries. "When it came to the production of war equipment and war supplies we had first to set about building the plants and machinery to make this possible."

AVOIDING INFLATION

"The main lines of our financial policy during the war have been, firstly, to pay as much as possible of the costs of the war from taxation; secondly, to impose this increased taxation in accordance with ability to pay; thirdly, to avoid inflation; and fourthly, to time our action in such a way as to encourage a rapid expansion of our production to the maximum."

Canada's war expenditures had risen from a basis of \$750,000,000 a year at the end of the first year to \$1,450,000,000 at the present time, he said, and that amount together with nonwar expenditures would bring the total expenditures for the current year to about \$1,918,000,000.

Ralston Urges Service In Cause of Freedom

HAMILTON, N.Y. (CP)—Hon. J. L. Ralston, Canadian Defence Minister, said in an address today that to serve the state to maintain freedom in the world is the only business today, and "if we do not make that a success nothing else matters."

"Canada, along with the United States, is the arsenal of democracy," Col. Ralston told Colgate University graduates in a speech after receiving an honorary doctorate of laws.

"We realize we can only hold our freedom by each of us voluntarily giving it up for the time being for the good of all. Instead of this surrender being imposed... by the will of the tyrant and the terror of

the secret police, democracy disciplines itself by measures approved by its own freely-elected Parliaments."

NO TIME TO LOSE

"The greatest enemy we have on this side of the Atlantic is the idea there is plenty of time. That enemy has suffered some heavy blows in the last year."

"Facilities for production of supplies, munitions and armaments are rapidly getting into high gear and Canadian producers and industry are putting their backs into the job. New plants have been built and old plants extended to make the complicated instruments of war."

"The job is just beginning and the struggle will be long and hard. We in Canada cannot afford to be either satisfied or content with progress so far."

Noting that President Roosevelt foresaw the menace of the western democracies, the defence minister said "stalwart measures of help have come from you—our good neighbors—in this struggle which threatens the way of living we have in common."

BAXTER SUGGESTS NEW SET-UP

LONDON (CP)—Formation of a "supreme directorate of strategy for the entire Empire" was suggested by Beverley Baxter, Toronto-born member of Parliament, in an article in the Sunday Graphic.

As members of this directorate he suggested Prime Minister Churchill, Prime Minister Menzies of Australia, Prime Minister Smuts of South Africa and Lieut.-Gen. A. G. L. McNaughton of Canada.

Under the heading, "Call these four men to direct the war," Mr. Baxter wrote such a plan "would be welcomed with enthusiasm throughout the civilized world and would provide the sword that would carve the way to a triumphant ending of the war."

With these men together in counsel, he said, "there is not a problem, not a territory, not a situation which cannot be dealt with by special or direct knowledge."

According to his plan, Mr. Churchill would be the political head of the whole Empire. Mr. Menzies and Gen. Smuts would have to appoint successors and come to England as completely free individuals.

"Why have I suggested Gen. McNaughton (commander of the Canadian Corps in Britain), to make the fourth in this supreme council?" Mr. Baxter asked.

Answering his own question, he wrote: "This Canadian soldier... is a man of outstanding gifts and holds a unique position in relation to his own country. He has never been mixed up in politics and is held in universal respect by Canadians of all classes and condition. He is a man of thought and action."

"He has those qualities of unusual penetrating thought which lift him completely from the groove which is the course of our war effort so far. These qualities are so generally recognized that after Dunkerque it was seriously considered whether the military defence of these islands should be placed in his hands."

Tory Physician Extraordinary

By NORMAN MACLEOD
OTTAWA.

RESTIVE

Around a pair of youthfully trim but aggressive shoulders that keynote the personality of Gordon Graydon, 44-year-old lawyer-parliamentarian from the small Ontario town of Brampton, the distinguished mantle of National Chairman of the historic Conservative party has fallen.

Contrary to what might be a general expectation, that distinguished mantle isn't any hoary, tattered, but revered garment. Instead, it is a robe dazzlingly resplendent in its freshness. For the post of National Chairman of the Conservative Party is as new as Conservative traditions are venerable.

It owes its creation to a flash of the sort of inspiration that genius sometimes yields when it gets backed into a tight corner and really goes to work. During the greater part of the present session the Tory caucus has been unable to disguise from itself that Conservative fortunes have come uncomfortably close to bankruptcy. Not only have the rank-and-file shareholders in the party been growing increasingly restive, but the preferred shareholders in Montreal and Toronto have also been demanding a reorganization. Under the circumstances, the caucus has had before it sundry propositions for the importation of high-powered talent from outside to take charge of the situation and engineer something in the way of a nation-wide Tory revival.

TOO THICK

The difficulty that all suggestions for the appointment of some outside physician—extraordinary to the party encountered, however, was the inability of the caucus to agree upon any of the names brought forward. In this dilemma the thought occurred: Why go outside their own number? Once this idea was loosened, the selection of Mr. Graydon and his investiture with the title of National Chairman followed almost automatically.

Unfortunately, the press statement announcing the Peel M.P.'s appointment was drafted by some of the more enthusiastic members of the caucus. They were disposed to place an undue window-dressing value upon the communique and they cloaked it, consequently, in the flamboyant language that they deemed appropriate to such a purpose. Reference was made to Mr. Graydon having acceded to "insistent and unanimous demands from practically every section of Canada."

It was further suggested that the national reputation he had earned in Parliament would cause his selection to "undoubtedly appeal to Canadians at large, regardless of party affiliations."

Such extravagant language, of course, doesn't really accomplish anything for Mr. Graydon's cause on Parliament Hill. Fortunately,

however, it has no power to hurt him. For Parliament Hill, generally speaking, has learned to know the young Peel M.P. for what he is. It knows that in the past five years he has been in the House he hasn't become any national figure. For one thing, he has lacked the necessary opportunity to do so. That is something he is only getting now.

LONG-HEADED

But Parliament Hill also knows that Gordon Graydon is one of the ablest younger members of the House and that he possesses an energy which, allied to his capacity, is capable of yielding formidable results.

Primarily, he is an attractive personality. He is good-humored. He is rarely to be seen when he is not smiling. But there is a quality of persistence about his good-nature that purges it of any suggestion of inanity. One knows instinctively in meeting him that Gordon Graydon is shrewd, patient in getting results, long-headed, formidable. Perhaps his most wholesome quality is the store he sets by hard work to secure results.

TO MEET ALL

One thing the Conservative Parliamentary group has guaranteed in selecting him is that there will be real action in the organization field. Mr. Graydon is no arm-chair executive, and already he has told persons who have promised to call on him in Tory headquarters here after the session closes that he probably will not be there. He has no intention, he says, of "putting his feet up" on the richly-carved mahogany desk in the organizer's office and seeking to do his job by remote control. Instead, he plans a Dominion-wide tour—without any public speeches. What he wants to do is to meet the rank-and-file workers in the different ridings and get them busy along the back concessions.

The program illustrates another Gordon Graydon trait. He doesn't have to have the spotlight turned on him before he will work.

MONEYED FUNDITS AGREE

The test of the wisdom of his appointment, obviously, will be the success he achieves. That will depend, in turn—at least in important measure—upon the degree of co-operation he receives from the Conservative Party in the House of Commons here. This factor is made all the more important in the situation by the well-known fact that it is Conservatives outside of the House of Commons who are financing the present re-organization effort.

The Parliamentary group here states, however, that these outside sources have been consulted and are in full agreement on the Graydon appointment. The provincial organizations, they say, have also been consulted and are in similar agreement.

have ample airfields and a large, growing air force as well as internal supply lines and our own bases."

Restrict Sale Of Pig Iron

OTTAWA (CP)—All orders on the books of Canadian pig iron producers as of June 9 are to be canceled to conserve iron and steel for essential war industries, H. D. Scully, steel controller, announced today.

New customer orders must be forwarded to the steel controller for approval, which will be given, Mr. Scully said, on the following preference basis:

1. Castings required for war work.
2. Castings required by transportation systems, mining and petroleum industries, and public utilities.
3. Castings for agricultural implements, and the pulp, paper and lumber industries.
4. Castings not otherwise classified.

"Under the control plan," Mr. Scully said in a letter to iron and steel foundries, "pig iron will not be available to foundries from the Steel Company of Canada Ltd., but all orders approved will be filled either by the Canadian Furnace Ltd. at Port Colborne, Ont., or the Algoma Steel Corporation at Sault Ste. Marie, Ont."

"Orders for iron, which must be forwarded to the office of the steel controller for approval, must show the purpose of use of the castings to be produced and, if for war purposes, the name of the contractor with the Department of Munitions and Supply for the articles in which they are incorporated, with the contract number, quantity of pig iron on hand at time of order and the daily rate of consumption."

Nazis Suffer Fire Losses

R.A.F. Bombs Dortmund, Essen, Ruhr Centres

LONDON (CP)—The Royal Air Force achieved "successful results" during bombing operations over western Germany last night, especially at Essen and Dortmund, the Air Ministry announced today.

(Nazi sources in Berlin acknowledged the R.A.F. bombed several places in western and northwestern Germany, and said damage was caused.)

An Air Ministry communique said the operations, although not on a large scale, were successful, especially at Essen and Dortmund, where large fires were started. All British aircraft returned to their bases.

The Air Ministry news service said that in the attacks on German factories, docks and rail-

roads "up and down the Ruhr" were the targets.

The observer in one plane which bombed docks along the Dortmund-Ems Canal was quoted as saying he could see fires a quarter of an hour after he had turned homeward and that there were "many other fires elsewhere in the Ruhr."

COAST TOWN BOMBED

The German air force made isolated forays over Britain last night.

A lone Nazi raider killed a small number of persons in an attack on a Cornish coastal town. Inland, there was scattered activity, with some casualties. The government said one German plane was destroyed.

No Gibraltar Bombing

GIBRALTAR (AP)—Authoritative sources denied today the Italian high command claims that Gibraltar had been bombed by Italian planes June 5.

Dispatches from Algiers, Spain, across the bay from Gibraltar, said unidentified aircraft dropped bombs at Estepona, Spanish town 25 miles northwest of Gibraltar, that night, causing

HUNDREDS KILLED IN ALEXANDRIA

ALEXANDRIA (AP)—Hundreds of persons were killed or wounded Saturday night and early Sunday by Nazi bombers which struck this British naval base in the heaviest raid Alexandria has yet experienced.

The main attack developed in the port area where a number of planes zoomed through a wall of anti-aircraft fire from British and Greek fleets.

It was reported they failed to hit warships or any military objectives, but considerable damage was done in the European and Arab residential quarters where many fires started.

Only towards dawn did the roar of anti-aircraft fire subside.

More than 100 persons were killed in an attack last Wednesday night.

Seizing the Initiative

FOR NEARLY TWO WEEKS THE BRIT-
ish public and the world at large had
been warned that German nationals were
arriving in Syria overland, by sea, and by
air. Vichy had previously admitted that air-
craft had "paused" in French-mandated ter-
ritory on their way to try to rescue Raschid
Ali from his serious predicament in Iraq. In
other words, the Petain government's col-
laboration with the Nazi Reich was mani-
festing itself in unmistakable manner, and
Britain could delay action no longer. As-
sisted by Free French troops, British and im-
perial forces crossed the border yesterday
morning. Vichy instantly voiced its protest
and annoyance. Berlin was perturbed. From
both sources came the familiar assurance
that the Allied command had taken action
unwarranted by the facts. Before this is
read we shall probably get an idea of how
many "tourists," "technicians," or soldiers
and airmen of the common or garden variety
had established themselves in this historic
part of the Near East—for the purpose of
taking Syria into "protective custody."

As we write, Cairo reports that the Allied
drive is "developing satisfactorily," while
from London comes an intimation that Brit-
ish warships have bombarded the Syrian port
of Tripoli, where one branch of the pipeline
from the Mosul oilfields of Iraq reaches the
sea. Free French headquarters announce that
General de Gaulle's men have been heartened
by the assistance of converts from the
Vichy cause—deserters from the forces of
Axis-collaborating General Henri Dentz. One
bulletin from the fighting zone suggests that
in both Syria and Lebanon the defenders are
putting up only a half-hearted resistance.
Another has it that fierce fighting already
has marked the developments of the last 48
hours. Since operations evidently have
succeeded had sufficient time to expand be-
yond the initial movement of sparring for
position, so to speak, definite news permit-
ting anything more than conjecture is, of
course, not yet available.

The satisfactory point about yesterday's
action and its potential influence on the
course of the war in the Near and Middle
East is that British, Imperial and Free
French forces have taken the initiative. It
was a similar movement—the landing of
troops at Basra seven weeks ago—which suc-
ceeded in smashing the Nazi-fomented re-
bellion in Iraq and the re-establishment of a
constitutional and friendly government in
Baghdad. The flight of Raschid Ali and his
conspiratorial gang from the important oil
state helped to counterbalance the disaster at
Crete. Not that Iraq may not again become
a battle ground; but the victory there ob-
viously impressed the Arab world and con-
stituted a serious setback to a vital part of
Hitler's "Drang-nach-Osten" plans. Allied
control of Syria obviously is important from
the political as well as the strategic point
of view. The campaign now begun is the
first real test of the strength and popularity
of the Free French cause; it will confront
the adherents of Nazi-controlled Vichy with
a grave decision. Either they must fight
their kin or refuse their support to the Dar-
lan philosophy—a philosophy based on the
invincibility of the German war machine, and
nurtured by personal ambitions.

The De Gaulle attempt to seize Dakar
already has been catalogued as a fiasco; his-
tory may not deliver anything like such a
harsh judgment. The leader of the Free
French troops hesitated to shed the blood of
his former comrades in arms; he felt assured
of a less hostile reception. From the mili-
tary and psychological points of view the
experiment was a failure; its effect cast
a gloom over the anti-Vichy elements. And
many were wise after the event. But there
can be no drawing back in the case of Syria.
If Frenchmen kill Frenchmen, it will be the
fortune of war. Britain cannot afford to
lose more prestige in the Near and Middle
East; the implications of the movement
now well under way are too far-reaching.
The progress of this campaign will be
watched by the whole Arab world; Turkey
has a definite interest in its progress and
the ultimate result. In charge of operations
is General Sir Henry Maitland Wilson—the
man who smashed the army of Generalis-
simo Rodolfo Graziani. If anybody can win
the Battle of Syria and Lebanon, he can. A
victory, soon and complete, may have reper-
cussions in Vichy and throughout the French
Empire. General de Gaulle's future as the
leader of those Frenchmen who still hate
Germany, as much as the great majority of
the French people at home do, depends on
the outcome.

A.R.P. and O.C.D.

WHAT THE INITIALS A.R.P. ARE TO
the people of Britain—and to most of the
world by this time—O.C.D. will soon be to
the people of the United States. The latter are
those given to the new department over
which dynamic Mayor Fiorella LaGuardia
of New York now presides: The Office of
Civilian Defence; in Britain, Air Raids Pre-
caution. O.C.D. is the organization which will
set up the means by which civilians in
American towns, cities and villages will de-
fend themselves if war in its worst and final
sense should come to this continent.
Nor is there anything hysterical about
the establishment of these techniques against

the day when the course of events may re-
quire their use. They are as much a part
of national defence as the training of an
army. Modern war attacks civilians and
cities as viciously as it attacks armies. If
the civilian is unprepared to resist, an army,
even a good one, may be suddenly left with-
out the back-home support which it must
have to function. Certainly one of the fac-
tors which brought about the capitulation
at Munich—rightly or wrongly—was the de-
fenceless state of London: Few anti-aircraft
guns; no air raid shelters; no adequate eva-
cuation arrangements for women and chil-
dren; no unusual fire-fighting arrangements;
nothing to prevent the city becoming an
immediate shambles under a quick raid. We
know only too well what has happened since
Goering's Luftwaffe smashed Warsaw and
Rotterdam, how when London got its first
aerial "Blitz" on the night of last September
7 a mad scramble to supply adequate protection
disclosed an insufficiency of precaution
in advance. It was one of the distressing
revelations of war in 1940.

With the experience of Europe before us,
it should be possible to lay the groundwork
of effective civil defence without disrupting
at all the normal life of communities. That
is the aim of Hon. Gordon Wismer's A.R.P.
scheme for British Columbia, to establish a
basis for civilian defence that is 100 per cent
precautionary and protective in nature, and
as important a part of national defence as
the armed forces themselves.

Rome Finds Its Voice

FASCIST PROPAGANDISTS HAVE NOT
waited long to play a "token" part in the
Battle of Syria. One spokesman in Rome
has announced that the British march into
French-mandated territory has opened an-
other front "for the Italians" and Germans,
explaining that "Syria will become a new
battlefield which England invented only to
delay her defeat several months." The sen-
tence in quotation marks appeared in the edi-
torial columns of today's issue of Il Piccolo.

There is this to be said about the news-
paper's reference to a new front "for the
Italians": If Mussolini is ready to bring out
his fleet in an attempt to transport Italian
troops to the new battle zone, the armies
which stood ready this time last year may
still try to retrieve something of the prestige
of which the same man who is commanding
the Allied forces in Syria robbed them in
North Africa last winter. But perhaps Il
Duce has had enough of the harsh treatment
which Sir Henry Maitland Wilson meted out
to Graziani's men between Sidi Barrani and
Bengazi. War by propaganda, especially of
the Italian type, flies no airplanes and fires
no guns.

What the Picture Tells

SEVERAL TIMES IN RECENT MONTHS
German spokesmen have indicated that
in the world they hope to create, after Hitler
and his gang have obtained complete domi-
nation, gold will have no value whatsoever.
They have figuratively laughed at the huge
stock which the United States has buried
down in Kentucky. But what ardent Nazis
say when they feel the urge to paint verbal
pictures of their "New Order" does not
harmonize with their actions when German
troops come across any of this precious
metal. One of the first orders of business
when they assume control of a country is to
make quite sure that its gold is seized
and sent to Berlin.

A recent issue of the Berliner Illustrierte
Zeitung just received has an elaborate and
impressive article about the new Reichsbank
building in the Nazi capital. Thiefproof and
fireproof, exults the author of the article
in question, are vaults 14 metres below
water level and three stories deep. Proudly
displayed is a picture of the gold repositories,
with bullion bars neatly stacked on shelves
—all calculated to show a regimented popu-
lace what Hitler has done for them on his
international poaching jaunts. When the
men of Berlin demonstrate their belief in
the worthlessness of this age-long com-
modity by refusing some of it, it will be time
to believe in the Nazi theory, that labor,
and labor alone, is the Reich's gold supply.

WHAT IS WRONG?

From Vancouver Sun

Recruiting has fallen down in this prov-
ince. There is no use blinking the fact. We
have got to face it, and see what must be
done about it. The army wants 32,000 men
from all Canada, 3,100 of them from British
Columbia. Mr. Ralston told the House of
Commons they had about one-quarter of the
needed number.

When Mr. Ralston says this is "satisfac-
tory" we wonder where he gets his com-
placency. The drive has been on since May
11, and is scheduled to finish at the end of
June.

In British Columbia they have still to get
2,445 men between now and the end of the
month. In four days of this month they
added only 91 men.

Is that a recruiting campaign? Is that
any way to fight a war? What is wrong
with the young men? What is wrong with
the men who are going after the young
men? Where is the fire and enthusiasm
and excitement that belong to recruiting
campaigns?

There are thousands of young men going
about their civilian life who once tried to
get into the army at the start of the war.
They were old they were not wanted. They
now say in effect: "Well, they'll have to come
and get me next time."

These young men are wrong. Mistakes
were made at the start of this war and
since. Mistakes are still being made, but the
old mistakes are being corrected. Young
men know that, as older men know it. The
fact that mistakes were made is no excuse
for not fighting the war now with every-
thing we can throw into it.

INCREDIBLE FOLKS

THESE INCREDIBLE ENGLISH are talk-
ing already about plans for the new Lon-
don which is to rise out of the ruins of the
old. It is something to plan. It is something
to think about and write books about and
argue about for centuries. Why, I know an
old man in London, one of the greatest
writers in its language, who has spent his
whole life studying, writing about it, talking
about and dreaming about London. He has
made a career of it and his books are read
wherever English is read.

No other city in the world could possibly
inspire such devotion, unless, perhaps, Paris,
but Paris is a kind of fickle place, a glam-
orous jade, whom no man could trust en-
tirely. Whereas London is male, is reliable,
trustworthy and can keep your secrets. And
now they are getting ready to rebuild it.

A fellow like me who has only spent a
couple of months in it should not be al-
lowed by rights to mention London at all.
You would need a lifetime to make its brief
acquaintance and then would have missed
most of it. Still, London will pardon this
distant and humble interest in its future;
and pardon some doubts also.

I mean, they shouldn't spoil London
when they rebuild it. They shouldn't admit
the passage of time and the changes in our
civilization. One thing surely should be
left intact and untouched in the world, and
what better thing than London? The prob-
lem, then, will be to build a better city,
more roomy and airy and light without spoil-
ing the old magic, a grave problem indeed.

FIRE AND ANKLES

ONCE BEFORE London tackled the same
problem. After the Great Fire, King
Charles II, who had some good ideas when
he wasn't occupied with his lady friends,
hired Christopher Wren to rebuild London
complete, and what Christopher did to Lon-
don makes the guide-book tourist's head reel.
I think it was 57 separate churches that he
designed and built simultaneously, among
them the fat, florid bulk of St. Paul's, which
is no more English than macaroni, which
came entirely out of Italian influences, to
which old Christopher at the moment was
a prey. And among them was also St.
Martin-in-the-Fields, which is the loveliest
thing in England.

But Charles got distracted by another pair
of ankles about that time and gave the job
up, and soon Christopher found all his clean
white masterpieces surrounded by evil
slums, so that no man can get a proper
view of any church in London. You have
to peer at them down narrow streets and
out of grimy windows, as if the English
were afraid to expose their treasures to
the sun or the gaze of the world; whereas
the wiser French usually lay out green
stretches of grass and fine trees to give
their treasures a noble setting.

PORT AND GOUT

THE GEORGES, rousing themselves for
a moment from their port wine and
gout, started to remake London but only
got as far as Regent Street. Having curved
it neatly out of Piccadilly, they fell back
exhausted and asked the butler to pass the
brandy. So London slipped back into its
old habits, with all its finest creations care-
fully sheltered, rimed with soot and lost in
smoke; but still men like my old friend
could write convincing books to prove that
the very rime and soot and smoke were
precious, that the final beauty of London
is to be found in Portland stone, which
goes black and then peels off into wondrous
trickles of white, as on the bleary, wise old
face of the Law Courts.

Finally King Edward opened Kingsway,
but that was the last attempt to expose
London to the light. Yet it still remains the
most livable of great cities because, by an
old and happy accident, parks were left
staggering through it everywhere and, com-
pared with New York, it is a country village.

Well, they propose to rebuild it. They
have blueprints already and plans, safely
locked up while the bombs fall. They will
clear away the ruins and they will make in
their place new and stately streets, great
thoroughfares and new public squares and
they will try to move the population out of
the centre into the suburbs where there is
still more light. But God forbid that they
should go modern. God forbid that the
spores of the fungus skyscraper growth of
the New World should find lodging in those
ancient stone crevices, that modern architec-
ture should replace, as the accepted style of
London, the good clean Gothic.

Perhaps they will find another Christo-
pher, who could originate a whole school
of architecture with one stroke of the pencil,
and a new principle of construction while
lunching in Fleet Street. Perhaps it will be
possible to combine the old London with the
new in some pleasing new form like St. Mar-
tin's, but they had better be careful. They
tried that kind of thing on Manhattan Island
and produced the Empire State Building.

CLUB DEPORTMENT

The Marquis of Queensbury has been ac-
customed, for many years, to play poker at
the regular sessions held at his club. The
game always has been played at a table di-
rectly underneath a glass room. "The roof
is so thin," the players were warned, "that
one small bomb might kill all of you."
"Cards have been played at this hallowed
spot for hundreds of years," said Queens-
bury, "and we shall not change it." "But
this is war," he was reminded. "And you
must make a change." "Here we stay,"
said the Marquis, dealing the cards, "but
we'll reduce the stakes."

Unoccupied France Must Bend To Hitler's Guns—Only Course

By PAUL C. SMITH

Editor, San Francisco Chronicle
Question—What is the outlook
so far as unoccupied France is
concerned?

Answer—This question in vari-
ous forms has been sent up to
nearly every platform from
which the writer has spoken in
recent weeks.

This morning it is tragically
pertinent.
The outlook is for "fullest col-
laboration" with the German
government at Berlin. "Fullest
collaboration" means the bending
of French will to the will of
Hitler.

Neither Petain nor the vast
majority of Frenchmen deserve
the "shocked" bitterness with
which this "fullest collaboration"
is being received in this country.

SEIZURES

It was wise to have taken
quick action in the seizure of
French ships. It would be even
wiser to take immediate action
toward seizure of French out-
posts which now are a Nazi men-
ace to the security of the western
hemisphere.

It is not clear that we are in
a position to accomplish this
seizure, but if we are from the
technical point of view (meaning
the military and naval point of
view) then it should be done. As
policy, it makes sense. It is up
to the military and naval authori-
ties to decide whether the policy
could be executed.

It should be done with the
promise that once the freedom
of France is re-established, we
would return their holdings to
a free French people devoted to
liberty, freedom and popular in-
stitutions.

NAZI MENACE

Until such a France is re-es-
tablished we are not dealing with
the French republic, but with a
clear-cut Nazi menace.

This policy should be executed
without bitterness toward the
French themselves. The French
today are paying the price for
having listened so long and
tragically to their appeasers and
their isolationists.

They are paying the price for
having assumed the impregna-
bility of their immobile Maginot
Line.

They are paying the price for
their years of strikes, their years
of internal disunity, their years
of short-sighted economic and po-
litical policy, their years of futile
muddling about with the so-called
"social gains" in the face of the
menace across the Rhine.

They are paying the price for
their failing to realize that liberty
cannot defend itself on a 40-hour
week, when tyranny is at large
on an 84-hour week.

They are paying the price for
indulgence of the Communist
saboteurs without realizing the
ease with which the hammer and
sickle could be fashioned into a
swastika—and vice versa.

ANTI-NAZI

The vast majority of French-
men are anti-Nazi today. They are
anti-German, they are anti-Com-
munist, but it is too late to make
any difference for a long time
to come. So today, for practical
purposes, they might as well be
Nazi, German, Communist.

It is too late to make any differ-
ence until the long and bloody
struggle ahead is won by those
who would fight for liberty, free-
dom and popular institutions the
world over.

It is too late to make any differ-
ence until that struggle is won—a
struggle which will take 10
years, a 100 years or maybe a
1,000 years.

'INTENTIONS'

President Roosevelt said, "...
We had been given assurances
by the head of the French state
on behalf of his government that
it did not intend to agree to any
collaboration with Germany
which went beyond the require-
ments of that armistice agree-
ment. This was the least that
could be expected of a France
which demanded respect for its
integrity."

That statement passes lightly
over a great deal of hard, brutal
truth.
In the first place, once a na-
tion is crushed by the Nazi mili-
tary might the only "intentions"
that count are the intentions of
Berlin.

France is a good example of
that cold truth. France is dis-
armed. The Germans hold 2,000-
000 of the flower of French youth
as hostages. Old Marshal
Petain knows that the lives of
every last one of these 2,000,000
Frenchmen would be snuffed out
without a second thought by a
displeased Nazi regime.

NO AIR POWER

France no longer has an air-
plane in the air. Old Marshal Pe-
tain knows too well that the Luft-
waffe, unrestricted in the air,
could do to France in a matter
of days—just as the English know
what would happen to England
if the R.A.F. should disappear
from the skies.
Old Marshal Petain now knows

the meaning of a Nazi agree-
ment. He has inside information
on the extent to which the Ger-
mans would go "beyond the re-
quirements of that armistice
agreement."

The President also said: "The
people of the United States can
hardly believe that the present
government of France could be
brought to lend itself to a volun-
tary alliance, implied or other-
wise, which would apparently de-
liver up France and its colonial
empire, including French African
colonies and their Atlantic coast,
with the menace which that in-
volves to the peace and safety
of the western hemisphere."

CRUSHED NATION

Well, the people of the United
States should not waste their
time believing that there is any-
thing voluntary about the posi-
tion of France today. France is
a crushed nation. A nation first
weakened by internal strife, dis-
unity, vacillating leadership,
short-sighted trade union policies,
blind and selfish industrialism,
Nazi and Communist propaganda
and sabotage—then crushed by
the highly organized machine
might of a tyranny calculated to
conquer the world.

It is too late for France. The
question is no longer what of
France tomorrow. The question
is: "What of America today?"

WILL WIN IN 1943

From Washington

Merry-Go-Round

Prime Minister Menzies of Aus-
tralia held some very important
conversations with high Wash-
ington officials during his recent
visit. In these talks he expressed
every confidence that Britain
would win the war, but he was
hard-boiled and realistic regard-
ing the time necessary for a vic-
tory.

Coming from Australia, which
has a detached and unbiased view
of the situation, his opinion is
important.

"During 1941 all our energies
must be concentrated on defense.
During 1942 we can really be-
gin to concentrate our efforts on
building up a real war machine.

"And in 1943—with America's
help—we can take the offensive,
and we shall win the war."

Better English

By D. C. WILLIAMS

1. What is wrong with this sen-
tence? "Had I have known you
were going."

2. What is the correct pronun-
ciation of "ally"?

3. Which one of these words is
misspelled? Hansom, handker-
chief, handsome.

4. What does the word "viv-
idly" mean?

5. What is a word beginning
with ab that means "act of doing
away with wholly, or state of ex-
tinction"?

Answers

1. Omit have. Say "Had I
known you were going." 2. Pro-
nounce al-i, a as in at, i as in lie,
and accent last syllable. 3. Hand-
kerchief. 4. Clearly. "His descrip-
tion was vividly given." 5. Abol-
ition.

PUT COLOR IN THE CAMPAIGN

From Toronto Globe and Mail
We have been told by our Min-
ister of National Defence that
this is not a glamorous war.
Rather, we are reminded, it is a
war of machines. True; it is not
a war of dashing cavalymen and
cavalry charges. But surely it
is not so drab and colorless that
the recruiting office in one of
Toronto's principal streets must
be in an abandoned office build-
ing the main entrance of which
is covered with cobwebs.

If we are to secure the 32,000
recruits urgently needed to rein-
force the men in the front line
it will be necessary to put some
color into the campaign.

Thirty thousand additional men
are needed immediately in the
greatest crisis which ever con-
fronted Canada. If the situation
is explained to those of military
age, there ought to be no diffi-
culty in filling the ranks. Those
who are not yet in uniform have
no right to shelter behind the sac-
rifices of their kinsmen in Brit-
ain, who at the call of duty left
their business and their homes
to face, if need be, the issues of
life and death.

If the voluntary system can do
no better than it has done up to
the present time, it will have to
be changed. The time has come
for combined effort to stimulate
and organize public opinion and
public effort in the most right-
eous cause in which our people
have ever been engaged. If the
appeal is properly made, men
will flow in by the thousands.
But they will not get much in-
spiration from a dingy old build-
ing.

WHY WE APPEASE JAPAN

The renewed hullabaloo about
the sale of U.S. oil to Japan is
causing much unfair criticism of
major U.S. oil companies. Actu-
ally, oil sales to Japan are a part
of a carefully thought-out State
Department policy, and the oil
companies, by following this
policy, are in no way at fault.
The State Department believes
that any drastic oil embargo
might well bring on either war
between Japan and the U.S. or
a Japanese attack on the Nether-
lands Indies, which could easily
involve the U.S. The issue boils
down to whether or not the U.S.
wants war in the Pacific at this
time. The State Department
thinks it best now to continue oil
sales, subject, of course, to close
administration supervision.

Alberta Recruiting Going Along Well

CALGARY (CP)—Recruiting is going along very well in Alberta, Major J. H. Gairnor, recruiting officer said, as he returned from a trip to Lethbridge.

Major Gairnor said the present recruiting drive had resulted in over 700 additions to the army in Alberta alone since it started three weeks ago. In May, 372 men enlisted in the army.

Edmonton's mobile recruiting depot has been established and in its first two days, had 70 applications. The mobile units are meeting such success that Lethbridge is establishing one this week. Calgary unit, operated by the Victory Loan committee and loaned to the army for recruiting, brought in 200 applications last week.

Saved 3 Seamen

Details of the rescue of three British seamen from the destroyer Mashona by Sub-Lieut. A. G. Whalley, formerly of Halifax, have been issued by the Admiralty.

Lieut. Whalley was on the destroyer Tartar which waged a 15-hour battle with German bombers following the sinking of the German battleship Bismarck. The Mashona was sunk by the bombers.

The Admiralty said Whalley tied a line around his waist and dived to rescue the sailors as they drifted rapidly away from the Tartar. The Canadian made the dive when he saw one man in the water wearing a lifebelt and supporting two wounded comrades. When he reached them he handed them his lifeline.

Wings Presented

Graduates of Jarvis and Fingal bombing and gunnery schools of the Royal Canadian Air Force received their observers' wings in Toronto on Saturday from Air Marshal W. A. Bishop, Canadian ace of the first Great War.

In an interview, Air Marshal Bishop expressed confidence that in the air things are going well and that the striking power of Empire bombers will rock Germany with ever-increasing violence.

"I have had recent information that the pilots and air crews we are sending to Britain are magnificently trained and are acquiring themselves in a manner which is up to our highest hopes," he said. "The steady stream of air crews we promised under the British Commonwealth Air Training Plan has now become a fact."

Airmen Graduate

K. D. Cox of Vancouver was among leading aircraftmen who received their wings in an air observers' graduating ceremony Saturday at No. 3 Bombing and Gunnery School. The school is at Macdonald, Man.

Indian Colonel

Assumes Command

The only full-blooded Indian colonel in the Canadian Army, Col. O. Milton Martin of Toronto, has assumed command of the Nainaimo Military Camp, succeeding Brigadier J. B. Stevenson, who has taken a post at Welland, Ont. Col. Martin was principal of the Danforth Park School in East York, Toronto, before the outbreak of the war, but kept in constant touch with military affairs as commanding officer of the Halimand Rifles. In the last war, he served as a lieutenant with the 1st Division Pioneers and later as an observer and pilot in the Royal Flying Corps.

After the start of the present

"I didn't mean any harm—I was just trying to earn a little extra change!"

war, Col. Martin was named to command the 4th Brigade (Reserve). A year ago he was appointed officer commanding 13th Infantry Brigade. His appointment to Command Nainaimo Military Camp, where three eastern Canadian active service regiments are in training, was announced in mid-May.

Army Captain Invests in Bonds

Although Capt. Earl Clemis of Lethbridge is serving with the Canadian Army overseas, he is anxious to offer more than his life for his country and has set a wonderful example for Canadian Victory Loan subscribers.

In a letter to his father received last week, Capt. Clemis instructed him to take out every cent of his savings and buy bonds with it. Then, he wrote, "Go to the bank and borrow money on the bonds and invest that in bonds too. I'll pay it off from my army pay."

TOBACCO FROM B.C. REACHES ENGLAND

Word has been received from the Acting Agent-General in London, W. A. McAdam, of the safe arrival of practically all of the first 20 shipments of tobacco and cigarettes sent prior to the middle of April by the British Columbia Overseas Tobacco Fund. Mr. McAdam states he is experiencing delays in delivery after arrival of the shipments at port owing to heavy congestion but so far no losses have been suffered.

The fund, organized by the Department of Trade and Industry, has been functioning since the middle of February and now that its advantages have become known cigarettes are shipped at the rate of 1,000,000 each month. E. G. Rowbottom, Deputy Minister of Trade and Industry, voiced appreciation of the splendid work of the Junior Boards of Trade and Chambers of Commerce, the United Commercial Travelers' Vancouver Branch No. 284, and other organizations in charge of local operation of the fund. "They have given us valuable assistance in our endeavor to ensure delivery of individual parcels of cigarettes to our boys overseas through large bulk shipments to British Columbia House," he said.

Over All Lines

British manufacturers found a greatly-improved market for their bicycles in Iceland after Canadian troops had moved in. During 1939, two British bicycles were sold in Iceland. Last year, 173 were sold.

If a Victory Loan bond investor wishes, he can invest \$500 or \$1,000 in \$100 bonds so that if at any time he needs ready cash he need not sell the whole amount to obtain the required sum.

Surgery unparalleled in history without anaesthetics has been performed on soldiers so tired they slept through major operations, a London meeting was told by a prominent surgeon.

Flying Officer Sidney (Timbertoes) Carlin, 48, one-legged airman credited with destroying 37 planes in the first Great War, was killed by a bomb on leave in the present war.

In one month nearly 4,000 Berlin shopkeepers were fined for violating Nazi government price laws. Price control officials in Germany now exercise their authority in practically every thing people eat and wear.

If any investor fails to pay for his Victory Loan bond within the five months' period allowed under the instalment plan, the bank will re-finance the loan at 4 to 4 1/2 per cent interest. Inasmuch as the bond is a 3 per cent bond, this means the financing is done on a net basis of 1 to 1 1/2 per cent.

Clifford Hall, 30-year-old artist, is exhibiting in London a series of 31 war drawings of "Bombs

in Chelsea," a graphic record of his experiences while a stretcher-bearer in London bombings.

Pat Newberry, a caretaker who fell 245 feet through a hole made by a bomb in a London building, hopes people will stop bothering him to get a medical check-up and let him get on with his job. "Just a bit of a scratch," he says.

If a Victory Loan bond is lost or destroyed by fire another will be issued providing the bond has been registered. If it is not a registered bond it is advisable to keep it in a safe place for protection. Such a bond is just as negotiable as cash.

For rescuing 30 persons from a public shelter under a bombed building, Air Raid Wardens R. L. Platen and T. E. Davis of Croydon, Eng., have been awarded the George Medal.

A Victory Loan bond holder can borrow up to \$90 on a \$100 bond. If the investor finds he cannot repay the loan, he can issue instructions for the sale of his bond to erase the debt, receiving whatever funds are due back to him from the sale.

Thirty-three British manufacturers sent overseas throughout last year an average of 1,125,000 razor blades a day. The enormous total of 456,250,000 blades would, end to end, extend 12,600 miles.

Canada bought twice as many motor cycles from Britain last year as in 1939. Makers of British bicycles and motorcycles used 50,000 tons of steel for the products they shipped overseas.

Letters to the Editor

WHAT IS A POOR M.P. TO DO?

Dominion government business is divided between the two railways on a 50-50 basis.

The railway committee has recommended that a larger proportion should be given the C.N.R. The idea is that the C.N.R. has more mileage, higher earnings, is, in fact, the larger line and therefore, in their opinion entitled to it.

The question may come before the House. Meanwhile, the members have been deluged with telegrams asking for their support. So far as is known at the moment, no one has suggested that the member should search his own mind—decide the right thing to do and then do it. The C.P.R. towns demand the business for the C.P.R.—C.N.R. towns reverse the demand.

Here then is a typical problem which confronts an M.P. What should he do? What is the fair thing to do? Should he try to decide the question on its merits? His judgment must be sounder than is that of those who are personally interested. But what of a situation where the number protesting may be great enough to turn the election tide against him? Should he say to himself: "It is more important that I should represent the constituency of X than that either of these two roads should get more business." Wise decision? Is the member a member for his constituency or is this then a national interest which transcends the local point of view?

A few days ago I read an item in a farm paper suggesting that the members of Parliament were stupid, incompetent log-rollers and back-scratchers. It would indeed be interesting if, on this and similar occasions, the voters might express their opinions defining the guiding principle on which an M.P. ought to act. The editor of the paper quoted is, of course, a voter and is not barred from expressing an opinion. The only answer which should be barred would be the quaint suggestion that the M.P.'s were elected to decide such things and ought to do their own deciding. If the people who sent us here have no opinions perhaps we should not be here.

PRO REC NEWS

Pro Rec swimming classes started last week with a registration of 60. Swimming instruction will be given every Tuesday morning during the summer between 10 and 11.30 at the Crystal Garden. Anyone 16 or over is invited to join the classes. Another practice will be held at the Memorial Hall on Wednesday evening for those taking part in the Victory Loan program on June 14 at Beacon Hill Park. Between 30 and 40 women are taking advantage of the opportunity to exercise out in the open at the Athletic Park every Thursday afternoon between 2 and 4. Information about these classes which are free to the public can be secured by telephoning Miss F. Borde at E2365.

Letters From the Front

Whole District Razed Says Yorkshire Writer

Ada and Bill, a Yorkshire couple, have sent an ex-Yorkshire family now living in Canada a letter telling of the raids on their home town. Ada writes:

"I don't know if you heard of your own home town and the air raids they have had. Mother's home was badly damaged. In fact, I wonder how they are alive—a bomb crater at the back door and another in front of the house. "People were killed and eight houses were completely razed in the neighborhood. And that's nothing to the town. You have only to read of the big shops explaining that they will pay the fare of customers to other towns where they have had to open new shops, to realize the damage done. "You remember where we lived, and you lived with us—the whole district's down to the ground. "But don't think that all this undermines our effort to win. Oh, no! It makes you so angry you could murder any Hun you chanced to meet. And as for waiting to see Hitler's next move, it makes my blood boil to read about it. "Then there are these silly

sentimentalists who go screwy and give the Huns cups of tea and smokes whenever they bale out. I have always been true to the 'Return good for evil' rule but sometimes I wonder if it's worth while. "I remember how the Huns treated our prisoners during the last war. Heaven help the poor lads in this. "Jackie went away last month—abroad, we won't know where for weeks. I hope he is rigged up with tropical kit. He's having his share of globe trotting, isn't he? Last year, Dunkerque, and this year, who knows? But he doesn't mind. He takes it as an education. "Gordon has been a few miles from here for over a year. Comes home three times a week and seems to think it would be bad luck for him if he had to move. The boy next door is on his way to Canada. I wonder if he will land near your place? "We've been home and had a chance to look around. The town will not be rebuilt in mother's time and I guess I shall be a few years older before things are normal again."

Health Day Sports

Five schools out of the eight embraced in the Esquimalt rural nursing service took part in the 15th annual Health Day sports held Friday afternoon in St. Aidan's grounds, Langford. The sports were officially opened by M. A. Morrow, president. The committee, convened by L. B. Smith, included Lieut. E. F. Levesque, G. Downard, F. H. Orchard, Miss H. E. Guy, Miss Peatt, Miss Smith, Miss Phowrie and J. Gowan, time recorder. The Canadian Scottish pipe band rendered selections.

The Schwengers Cup, in the boys' events, was won by Langford School with 31 points, while the Happy Valley girls beat the Langford girls by one point to obtain Mrs. Herbert Pendray's Cup. The prize awarded to the one-room school for highest points in the field events was won by Otter Point. The Department of Health challenge cup was obtained by the E.R.N.S. by default.

Mrs. Vallis, president of Colwood Women's Institute, presented the basketball cup, donated by Langford, Happy Valley and Colwood Women's Institutes, to the Happy Valley School team for winning the interschool matches.

Mrs. Dr. Haag presented the Happy Valley W.I. Cup for most points in interclub matches to the Happy Valley School team. Sgt. Major A. G. Mackie presented the "Prince Edward" Shield to the Langford School football team, and A. E. Anderson, secretary, gave little souvenirs to the individual boys.

Essays and slogans were judged by Messrs. A. H. Ball and W. E. Stevenson on "A Child's Wartime Diet," were won by: Essays, seniors—1, Sylvia Morrow, Happy Valley; 2, Heidi Kaults, Shirley; 3, Shirley Banner, Shirley; 4,

ARRANGING GARDEN PARTY—Members of the Navy League Chapter I.O.D.E. arranging the details of the garden party and bridge to be held at the home of Mrs. Lennox Irving, Foul Bay Road, on June 11. Left to right: Mrs. Robert Renfrew, Mrs. T. A. Johnston, (convener), Mrs. Lennox Irving, Mrs. J. L. Ford, the regent, and Mrs. F. O. Richardson, Mrs. G. B. Elliot and Mrs. E. H. Hanbury.

Social and Personal

Mr. and Mrs. J. E. Marshall, Victoria, have been spending four days' holiday in Vancouver, guests at Sylvia Court.

Mrs. G. A. Smith, Vancouver, is the guest of her son and daughter-in-law, Mr. and Mrs. Lewis B. Smith, Langford Lake.

Miss Nancy Malkin and Miss Grace Thompson of Vancouver are spending the week-end in Victoria, guests at the Empress Hotel.

Miss Pauline Gill of Duncan, after a short visit in Victoria with her parents, Dr. and Mrs. H. C. Gill, St. Patrick Street, has returned to her home up the island.

Mr. M. J. Byrne of South Sloca and Mr. G. F. Chapman of Bonnington Falls, after a short visit in Victoria, have returned to their homes in the interior.

Mrs. W. J. Babcock of Port Renfrew, after a short visit in Victoria with her parents, Mr. and Mrs. J. V. Meston, Cadboro Bay Road, has returned to her home up the west coast.

Mrs. Horkins, wife of W. B. Horkins, K.C., Toronto, who has been elected for the third consecutive year as national president of I.O.D.E., is a niece of Mrs. Barbara Sullivan, Downey Road, Sidney.

Mr. and Mrs. W. G. Eccleston of Beverly Hills, California, who have been spending their summer vacations at the Empress Hotel for many years, are now en route to Canada by motor and will probably arrive in Victoria about June 20.

Mr. Nelson Hicks of Vancouver came over to Victoria to join his wife, who has been visiting her mother, Mrs. D. R. Sheret, Medina Street, and to attend the Ruck-Sheret wedding that took place on Saturday. They will return to Vancouver this week.

Mrs. Reuben Cartwright was hostess recently to the members of the Chiselers' Bridge Club at her home on Foster Street. Dainty refreshments were served and prizes, which were war saving stamps, were won by Miss Irene Wallace and Mrs. R. Cartwright. Other members present were: Miss Muriel Tolpitt, Miss Betty Lansell, Miss Peggy Merton, Mrs. Florence Auchterlonie and Mrs. Robert Stewart. The guest of the evening was Mrs. Gilbert Stancombe. The next meeting will be held at the home of Miss I. Wallace, Hillside Avenue.

At St. Matthew's Church, Langford, yesterday afternoon, Rev. J. P. Disney christened the little son of Mr. and Mrs. Frank Wakeham, Victoria, in the font presented to the church by the late Mr. A. C. Wakeham in 1924. The baby received the names Alfred William, and godparents were Mr. and Mrs. Arthur White and Mr. S. Hutchinson. Later Mrs. O. M. Wakeham, paternal grandmother, entertained a number of relatives and friends for tea at her home on Chester Street. The table was graced with a christening cake and vases of sweet peas.

Mrs. J. W. Dobbie and Mrs. F. Miller were hostesses at a miscellaneous shower at the home of Mrs. J. W. Dobbie, Oak Bay Avenue, in honor of Miss Kay Field, whose marriage will take place this month. On arrival, the bride-to-be was presented with a corsage of pink roses and orange blossom, and the gifts were presented from a decorated basket. Later, supper was served, Mrs. J. W. Dobbie and Miss Lillian Dobbie presiding. Other guests were Mesdames A. Stewart, T. Dickie, F. Bligh, J. Bligh, G. Bligh, H. Andrews, K. Cameron, W. Hodgson, A. Hodgson, G. West, F. Miller and Miss Delver Dobbie.

Mrs. R. W. Knowles was hostess at her home, 1131 Oscar Street, when the Ladies' Auxiliary to the B'Nai B'Rith entertained at a games evening in aid of their war effort. The guests numbered 42 and bridge and other games were enjoyed, the prize-winners being: Mrs. Weinstein, Mrs. G. Pilling, Mr. Morris Green and Mr. H. I. Mallek. As a result of the affair, \$30 was raised for the war work.

A shower was held at the home of Mrs. D. B. Nickerson, Vimy Street, in honor of Miss Muriel Creech, a June bride-elect. During the evening the guest of honor was presented with a Royal Albert tea set from the assembled guests, accompanied by a corsage of pale pink carnations and rosebuds. Games and contests were enjoyed, the winners being Miss Allison Chow and Miss Lillian Smethurst. A buffet supper was served, the table being covered with a hand-made cutwork cloth and centred with a low crystal bowl of yellow and white flowers. Others present were: Mesdames E. Kinsman, A. Roach, G. Wright, R. Cruickshanks, E. Corbett, T. C. Hubbard, J. C. Newbury, M. Dodd, I. Dodd, H. A. Beckwith, T. P. Waters, C. Davies, R. Dalziel, F. Pomeroy, J. King, F. Webb, D. Creech, J. Brown and the Misses Jean Lorimer, Margaret Davey, Lillian Smethurst, Marjorie Fraser, Daisy Lyle, Marjorie Gillies, Margaret Andrews, Mildred and Allison Chow and Ellie Neelands.

Miss M. Thomason at her home on Blackwood Street was hostess at a kitchen shower for Miss Kathleen Hopkins, who is to be married this month to Mr. W. E. Sims. The guest of honor and her mother were presented with corsage bouquets of pink and white carnations respectively. The gifts were arranged in a decorated basket beneath a parasol daintily trimmed with frills of pink and white. The rooms were arranged for the occasion with pale pink snapdragons. Refreshments were served after a pleasant evening of games. The invited guests included Mesdames D. Stewart, S. MacKay, W. Tabor, W. Sawyer, H. McKenzie, L. Vaio, D. Carter, E. Wiley, W. Demers, H. L. Hopkins and J. Thomson, and the Misses Joyce Hopkins, Evelyn Simmons, Isobel Chisholm, Betty Aitken, Dorothy McKay, Vera Carter, Dorothy Jealous, Ora Jealous, Kay Fowler, Violet Hearn, Agnes McMullock, Kay Morris, Grace McKerracher, Ethel Price, Alice and Beatrice Sawyer, Eleanor and Allison Woodward, Nornie Jenner, Muriel Burkenshaw, Irene Tait, Olive Pritter and Phyllis Battle.

In compliment to Miss Betty Mae Cameron, whose marriage to Staff-Sergeant Justin V. Harbord-Harbord will take place this month, Miss Bernadette Corcoran and Miss Pat Crawford entertained at the tea hour yesterday. On behalf of the assembled guests, Miss Cameron was presented with a gift of linen, accompanied by a corsage bouquet of gardenias and rosebuds. The gifts were concealed in a large crepe paper rosebud in shades of pink. The tea table, with crystal appointments, was centred with pink carnations and was presided over by Mrs. J. O. Cameron and Mrs. E. W. Hetherington. Assisting in serving were Mrs. Robert Schultz and the Misses Alice and Rita Corcoran. The other invited guests included Mrs. W. A. Cameron, Mrs. J. O. Cameron, Mrs. D. O. Cameron, Mrs. Jamie Cameron, Mrs. W. Mearns, Mrs. Nichols, Mrs. P. E. Corcoran, Mrs. K. Mills, Mrs. C. Crawford, Mrs. W. Munzie, Mrs. W. Passmore, Mrs. E. W. Hetherington, Mrs. R. Sails and Mrs. Churchill, and the Misses Joyce Winsby, Joyce Scurrell, Tiki Lindgren, Mary Louise Bryant, Grace Stuart, Davina Dingwall, Rae Miller, Win Wright, Louise McClellan, Jean Ciceli, Charlotte Crawford and Jean Tinker.

Mr. and Mrs. Hugh B. Darnell, "Miyajima," Uplands, have as their guests for the summer months Mrs. A. H. V. Woolrich, Toronto, and her little daughter, Mary Lou, Flying Officer A. H. V. Woolrich, R.C.A.F., is the son of Mrs. Darnell, and has just arrived in California, from Toronto, in command of the first group of English boys who have arrived in the United States to receive their training for the Royal Air Force, in California and Texas.

Last evening at the home of Mr. and Mrs. S. L. Ricketts, Wolston Street, about 40 of their friends assembled to offer their congratulations on the 25th anniversary of their wedding day. They were the recipients of many gifts in addition to many beautiful flowers. During the evening Mr. Bob McGill rendered several vocal solos, accompanied on the guitar by Mr. Fred Usher. Supper was served from a table centred with a large wedding cake, surrounded by snapdragons, carnations and sweet peas and lighted with tall white tapers in silver holders. Presiding at the supper table were Mrs. F. Ricketts and Mrs. C. R. Caselton, who were assisted in serving by Mrs. H. S. Sutherland and Mrs. C. Routledge.

Mrs. E. Johnson, 1301 Rudlin Street, was hostess at a miscellaneous shower for Miss Evelyn Frederick, whose marriage to Mr. C. W. Butler will take place this week. The many gifts and a corsage bouquet of rosebuds were presented by Roberta Ballantyne from an attractively decorated box. The winners of the contests were Misses Mary Melenius, Betty Dairs and Roberta Ballantyne. Refreshments were served from a lace-covered table, centred with a silver basket of yellow roses and lighted candles in silver holders. The bride-to-be cut the white and silver ice cream cake, which was set on a side table. Other invited guests included Mesdames Evelyn Fredrickson, V. Ballantyne, Moggey, F. Dyson, N. Turner, L. Woodman, J. E. Phillon, C. Wilson, M. Shiver, A. J. Heard, D. B. Macpherson, M. Mitchell, J. Davis, C. Quest, P. Greb, and Misses Betty Keale, Lily Beckett, Lillian and Ivy Johnson.

Canadian Daughters met Thursday evening with Mrs. C. Jasper presiding. Mrs. Hewitt gave a concise report of Local Council of Women's last meeting and Mrs. Otto reported 19 pairs pyjamas, four rompers and one sweater completed and turned in to Red Cross. A card and basket of fruit was ordered for a sick member. One new member was initiated. Further donations for bombed-out kits will be accepted at the next meeting, June 19. Mrs. Hemeon donated a quilt cover to be completed and raffled in the near future for the Canadian Daughters' Home Defence Fund. For this purpose a garden party is also being held at the home of Mrs. M. Bray, 1362 Hillside Avenue, in the afternoon of Wednesday, June 11th, when games, bingo, raffles will take place. Mrs. M. Whitwell will have charge of the candy stall and Mrs. Akenhead the home cooking. The attendance prize was won by Mrs. C. Porteous. A report of the Canadian Daughters' League Home Defence Fund was given out, showing over \$2,000 donated to this effort which will be handed over to the government shortly.

British Women in Germany Keep 'Thumbs Up'

By ANGUS THUERMER
RAVENSBURG, Germany
(AP)—There is a hotbed of British patriotism here in the heart of southern Germany.

Three miles from this little walled town 330 British women and six children are interned for the duration of the war. They are living in three large buildings on grounds of a convent of a German order of Catholic nuns.

Some have been in internment at various places since the Polish campaign late in 1939 — but throughout the camp the spirit of "thumbs up" still prevails.

The women were brought here from Belgium, the Netherlands, Poland and parts of the Reich itself—picked up by German police. The internees range from girls of five to women over 60. Some had been governesses. One girl taught Netherlands officers how to ride horseback. One was captured with the French Red Cross inside the Maginot line. Others are blues singers and dancers who had been entertaining at continental clubs.

Among them, too, is Col. Mary Booth, granddaughter of the famous Salvation Army leader. She was taken into custody on a battlefield in Holland where she was caring for her charges. About 10 others were taken from aboard ships seized by German high sea raiders.

In the camp, in the beautiful Wurttemberg hill country, with the Alps visible in the distance, Miss Olivia Paquin of Montreal said:

"Yes, they treat us okay, but I sure would like to get out." Several of the women, however, were bitter about severe conditions they were forced to undergo in occupied territories and the Reich proper before arriving in this camp.

Arrival of food packages from the Canadian and Scottish Red Cross was one of the greatest events in a rather humdrum life.

Solitaire Calls For Glamour Hand

By BETTY CLARKE

The girl with a new solitaire has a lot on her hands, especially from a beauty standpoint.

Everybody wants to see her ring, and that means seeing her hands. Her hands must be white (definitely white); the cuticle must be smooth (so smooth) and her nails must be perfect (not too, too long for a bride, please).

There's something about a bride that suggests a soft rose rather than bright red nail polish. Flower petals shades really are in style, along with more feminine frills and simple outdoor fashions. There are shades with lipsticks and rouges to match.

Remember that you can match your diamond and your nails to get slender, graceful lines. Choose an oblong diamond or a boat-shaped stone. Then apply your polish over the entire length of the nail to make it appear longer. The long line of the stone (be it diamond or another stone) and the line of the nail seem to make the fingers taper.

You really shouldn't select a wide-band gold ring with round cut or even square diamonds unless you are one of those tall, tall girls with long hands. Remember that a wide band makes your hand seem shorter.

If your engagement ring is wide, your wedding ring should be narrow and in the same metal.

Lodgewomen Doing Fine War Work

Mrs. L. Morgan presided at the meeting of Daughters of St. George, No. 83. Mrs. E. Burke, worthy district deputy, and members from Princess Patricia Lodge were welcomed. A successful year was reported in the audited report read by Mrs. H. Penketh. The war effort committee reported for the year ending May 31 as follows: Donations to Red Cross, \$267; Lord Mayor's Fund, \$56; Lady Astor Fund, \$60; War Bonds, \$296.25; cigarettes to a sailor, \$1; 16 bundles for Britain and 10 blankets and two knitted afghans were sent to England.

The worthy district deputy installed the officers for the ensuing term, with Mrs. A. Harris and Mrs. A. Gurney as supreme conductors. A bouquet of red and white carnations, the lodge's colors, was presented to her by the president. The district deputy presented the president with a bouquet and also the supreme conductors with corsages of red and white carnations. A hearty vote of thanks was given to Mrs. Harris for making corsages for all the officers and drill team.

A silver tea and cards will be held at the home of Mrs. J. Burnett, 1159 Old Esquimalt Road, on Wednesday, June 11, at 8, assisted by Mrs. J. Lomas, the proceeds to buy wool for the lodge's war work. The annual trip to Vancouver will be held on Wednesday, July 2, all those wishing to go to give their names to Mrs. Harris, G 7073. Those wishing to take the one-day trip to give their names to Mrs. Burnett, E 1257.

Mrs. N. Petrie and Mrs. Morgan were the winners of the War Saving Certificates. Refreshments were served by Mrs. Barnes and Mrs. Williams. The next social will be held on Wednesday, June 18, at 7.30 and followed by a bingo game.

At the annual meeting of Rockland Park W.C.T.U. election of officers resulted as follows: Honorary president, Mrs. F. W. Laing; Mrs. J. P. Hicks, president; vice-president, Mrs. George Holt; secretary, Mrs. J. Pettigrew; corresponding secretary, Mrs. J. A. Mossop; treasurer, Mrs. L. A. Moody. A luncheon picnic was arranged for July 7 at the home of Mrs. George Holt, Seaview Avenue, Ten Mile Point. The meeting was at Mrs. F. W. Laing's, Ormond Street. The hostess poured tea and assisting in serving were Mrs. N. Phillips and Mrs. W. Parry.

A garden party held by a group of Red Cross helpers at the home of Mrs. W. McGill, 1170 Tattersall Drive, on Thursday was a great success. Games, contests and novelties were attended to by the young ladies, while tea was served by the mothers in the dining-room. Tea cup reading by Miss Rains proved entertaining. The girls responsible for the party which netted the sum of \$30.44 were Misses Jean and Margaret Neilson, Hughella Glover, Ethel Barker, Barbara Bonnell, Lois McGregor, Marion Underwood, Barbara Johnson, Edith McGill and Yvonne Davies.

The summer sale held recently by St. Paul's Naval and Garrison Church W.A. proved most successful, approximately \$80 being realized. Rev. R. C. S. Devenish introduced Mrs. W. J. R. Beech who declared the sale open, and was presented with a dainty bouquet by little Kathleen McIlvenny. The guests were welcomed by Mrs. R. Narracott, president, and Mrs. R. C. S. Devenish. The stalls were presided over by the following: Home cooking, Mrs. W. E. A. Barclay and Mrs. J. Kennedy; sewing, Mrs. E. C. Rossiter and Mrs. J. E. McDonald; candy, Mrs. J. Macallan and Mrs. P. Going; flowers, Mrs. B. T. Derry and Mrs. L. Howe; competitions, Mrs. F. Higgins and Mrs. J. McIlvenny; tea, Mrs. H. C. Silburn, Mrs. J. Maynard, Mrs. A. Jubb and Mrs. T. C. Sherwood. The next meeting will be held on Tuesday, June 10, at 2.30 in the church house.

The Junior Auxiliary to the B.C. Protestant Orphanage met on Friday night with the president, Miss Elsie Appleyard, in the chair. Mrs. Joan Schultz, general convener of the annual silver tea, announced that Mrs. F. V. Longstaff had kindly consented to have the tea at her home, 19 King George Terrace, from 3 to 6 p.m. on Saturday, June 21. A home cooking stall, fortune telling and contests will be added attractions. An extra meeting will be held to night at the home of Mrs. Joan Schultz, when final plans will be made. It is hoped all members

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks pink. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. They do the work of colonel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 24¢.

I THOUGHT TOM'S SHIRT WAS WHITE... TILL I SAW YOUR BOBBY'S RINSO-WASHED ROMPERS!

You'll wonder why you were satisfied with anything else when you see Rinso whiteness

Yes—the difference in whiteness between Rinso-washed clothes and clothes washed any other way is an eye-opener! Even with all your experience, you'll be amazed when you see the real whiteness Rinso gives to your clothes. In fact, the way thick, rich Rinso suds soak clothes white is astonishing to women who have never tried Rinso before. Rinso does more than give a whiter wash—it gives the whitest wash! And once you've tried Rinso you'll want Rinso whiteness for your wash every week! Get Rinso now—to be ready for next washday! For extra economy ask your dealer for the GIANT package.

Rinso gives the whitest wash!

June Wedding Season Opens With Rush

HAYWARD-STANLEY

Five attendants preceded the pretty bride down the aisle of St. Mary's Church on Saturday evening, when, in the presence of a large congregation, Marguerite (Peggy) Stanley became the bride of Mr. William Henderson Hayward. The bride is the only daughter of Mr. and Mrs. R. E. Stanley, 2080 Chaucer Street, Oak Bay, and the groom is the youngest son of Mr. and Mrs. Reginald Hayward, 2140 Oak Bay Avenue, and member of a well-known pioneer family.

Archdeacon A. E. de L. Nunn performed the ceremony, assisted by Rev. F. E. Cyril Venables. The wedding music was played by Mr. F. T. C. Wickett, church organist, and while the register was being signed Mrs. Marjorie Goodwin sang "Pastorale" (Roland Diggle).

The bride made a picture of girlish loveliness as she entered the church with her father, who gave her in marriage. White slipper satin fashioned her graceful gown with its long train, fitted bodice buttoned at the back, and long sleeves, padded high at the shoulders and fitting over the hand. The sweetheart neckline was trimmed with orange blossoms and her filmy veil, edged with lover's knots, fell from a Mary Stuart headdress of tulle, the pointed centre of orange blossoms coming low over the forehead. In place of the conventional bouquet, she carried an ivory prayer book shrouded with gardenias, pink roses and white satin ribbons.

The bridesmaids, the Misses Peggy Bishop, Helen Johnson and Marie Thomas, were in gold brocade satin, and Miss Irene Brockington, maid of honor, in clover pink brocade satin, their gowns fashioned alike with high waists, V-neck, long sleeves and full skirts, with the crownless Elizabethan hats of the same material, and carrying cascade bouquets of carnations and sweet peas. Little Betty Fowler, the flower-girl, was in a period frock of clover

pink brocade satin, with Elizabethan hat to match.

Mr. Reginald Hayward Jr. supported his brother, and the ushers included Mr. Wilfred Fraser, Mr. Russell Sillers (Vancouver) and Capt. Alex. Gunning, C.D.C. (Vancouver).

200 AT RECEPTION

About 200 guests were welcomed at the reception held at the Oak Bay Beach Hotel. Mrs. Stanley received in a bois de rose gown, with V-neck, full skirt, and fitted jacket, a Leghorn hat trimmed with bois de rose and was assisted in receiving by Mrs. Hayward Sr., in a gown of marine blue crepe with chiffon top beaded in floral design, wide-brimmed hat of soft white straw. Both wore corsage bouquets of pink rosebuds and sweet peas.

Tea rosebuds adorned the buffet from which refreshments were served, and the three-tiered wedding cake, embedded in white tulle dotted with pink rosebuds and maidenhair fern, centred the bride's table. Rev. Cyril Venables and Dr. Stanley Miles proposed the toasts.

Miss Joy Groves, accompanied by her mother, Mrs. H. Groves, sang "Love Is All" and "Wedding Bells," and Mr. Groves gave a humorous monologue, "Buying a Wedding Present," during the evening, and solos were also sung by Mrs. Goodwin, including "Love's Garden of Roses" and "I'll Walk Beside You," a new song which was dedicated to the young couple.

Mr. and Mrs. Alex Fowler of Coal Island, Sidney; Mr. and Mrs. Robert Aves and Mr. and Mrs. Russell Sillers of Vancouver were guests at the wedding.

After a honeymoon on the mainland, for which the bride left in a Queen's blue dressmaker suit trimmed with grey-blue dyed fox, and navy blue accessories, Mr. and Mrs. Hayward will reside on Linden Avenue, Victoria.

DOWNEY-McCAW

A wedding took place Saturday evening at Wilkinson Road United Church parsonage between Ella Kathleen, second daughter of Mr. and Mrs. W. A. McCaw of Avonlea, Sask., and Mr. Alfred Russell Downey of Raymond Road, Saanich, Rev. Wm. Allan officiated. The bride was attractively attired in an afternoon frock of shell-colored crepe sheer, with a broad-brimmed white hat and white accessories. She wore a corsage of pink carnations and maiden hair fern. Miss Marjorie McConnell assisted as bride's maid, and wore a becoming dress of dusty rose crepe, with white hat and white accessories. For the honeymoon on the mainland the bride wore a black suit with blue accessories. On their return Mr. and Mrs. Downey will take up residence in Saanich.

RUCK-SHERET

At a quiet ceremony in the vestry of the First United Church on Saturday evening, Rev. Hugh A. McLeod solemnized the marriage of Dorothy, third daughter of the late Mr. David R. Sheret and Mrs. Sheret, 110 Medina Street, to Mr. Gordon Sharon Ruck, only son of Mr. S. C. Ruck and the late Mrs. Ruck, 35 Cambridge Street.

The bride who was given in marriage by her brother, Mr. Robert Sheret, wore a Queen's blue ensemble with a small matching hat, beige accessories and a corsage bouquet of bridal roses, white heather and swainsona. She was attended by her sister, Mrs. Gladys Sheret, wearing a dusky pink redingote ensemble with a smart matching hat, beige accessories and a corsage spray of roses and bouvardia, and Mr. Frank Sommer supported the bridegroom.

A small reception was held later at the home of the bride's mother, who welcomed the guests in a black lace jacket dress with a silver fox cape and matching accessories, assisted by the bridegroom's sister, Mrs. W. Moore, who was dressed in navy blue and white. The artistically arranged supper table was centred with a three-tiered cake. Mr. and Mrs. Ruck left on the midnight boat for Vancouver en route for a honeymoon at Jasper, and will return to Victoria to live.

TAYLOR-BROGAN

The marriage took place on Friday evening at the home of the bride's sister, Mrs. Betty Lewis, Savannah Avenue, when Mary Scorgie, daughter of Mr. Peter Brogan, and the late Mrs. Brogan, became the bride of Mr. Walter J. Taylor, R.C.C.S., Work Point Barracks, only son of Mr. and Mrs. W. J. Taylor, LaCombe, Alta. Rev. Hugh McLeod officiated, the ceremony taking place in the living-room, which was decorated with standard baskets of delphinium, with lighted blue tapers.

Given in marriage by her father, the bride wore a gown of aquamarine chiffon with a matching jacket, with silver-bugle trimming. Her hat of aquamarine felt was trimmed with a chapel veil to match her frock, and she carried a shower bouquet of roses, sweet peas and white carnations. Her sister, Mrs. Lewis, was matron of honor, wearing a blue-flowered taffeta frock with a jacket and a blue net doll hat. Miss Jean Brogan, another sister, was bridesmaid, wearing a pale pink lace gown and matching hat. Both attendants carried sheaves of blue iris and pink sweet peas, tied with mauve ribbon. Lance-Corpl. Charles Sharp was best man. While the register was being signed, Mrs. Sarah Dawe sang "Because."

Refreshments were served from a lace-covered table, arranged with vases of pink rosebuds and a three-tier wedding cake. The toast to the bride was proposed by Mr. George McLean, an old friend of the bride's family. Assisting Mr. Brogan in receiving was the bridegroom's mother, Mrs. Taylor, who wore a black dress with a sheer redingote embroidered with tiny flowers. Her wide-brimmed black hat was trimmed with roses.

Corpl. and Mrs. Taylor left for a motor trip up-island, the bride wearing a smart brown tailored suit with gold accessories and red fox furs. Her bouquet was of purple irises and roses. They will reside on Savannah Avenue. The bride has been a member of the teaching staff of the North Saanich Superior School for 13 years and regent of H.M.S. Endeavor Chapter, I.O.D.E., at Sidney.

NORIE-ALEXANDER

At St. Mary's Church, Oak Bay, on Saturday morning at 11.30, Ven. A. E. de L. Nunn, Archdeacon of Columbia, united in marriage Joan Isobel, twin daughter of Mr. and Mrs. Norman Alexander, Lac la Hache, B.C., to Mr. Henry Cavendish Norie, elder son of Mr. and Mrs. H. A. Norie, Cowichan Station.

The bride was given away by her father, and was attended by her cousin, Miss Dreda Nightingale. The bridegroom's brother, Mr. V. F. Norie, was best man. A small luncheon party was held afterwards at the Oak Bay Beach Hotel.

After a honeymoon up-island, Mr. and Mrs. Norie will return to Victoria to reside.

JOHNSON-PARKINSON

By the soft glow of candlelight from cathedral tapers in wrought iron standards marking the central aisle and choir stalls, and against a background of wrought iron standards of white gladioli and pink peonies at the chancel rails one of the prettiest weddings of the year marked the nuptials on Saturday evening at St. John's Church of Helen Leonore, second daughter of Mr. and Mrs. John Lund Parkinson, Esquimalt, and Capt. John Dimery Johnson, Canadian Dental Corps, only son of Mrs. E. D. Johnson, Victoria, and the late Mr. E. D. Johnson, deputy Minister of Finance. Major the Rev. Arthur Bischofberger performed the ceremony in the presence of a large congregation.

The lovely bride, given in marriage by her father, wore a model gown of embroidered gossamer starched chiffon, featuring the small waistline extending in unpressed pleats into a full skirt with long, fan-shaped train. The short sleeves and sweetheart neckline were outlined with crushed gardenias, and tiny self-covered buttons extended from the neckline to the waist. Her finger-tip veil of diaphanous tulle fell softly round the face from a headdress of fresh gardenias, and she carried a bouquet of butterfly roses, gardenias, stephanotis and sweet peas.

The bride's sisters, Mrs. Raymond W. Kersey and Mrs. Melvin S. Lawson, as matrons of honor, and the groom's sister, Miss Kathryn Johnson, as maid of honor, were gowned alike in quaint frocks of cloud-pink dotted muslin, made with tiny pleated waists, tuxedo tucked bodice with pointed collar and very full skirts. Their chapel veils of pink tulle were tied with velvet bows to match, and they carried Colonial bouquets of pink and white sweet peas showered with bouvardia.

Capt. R. Loudon, C.D.C., was best man, and Capt. Arthur Webster, C.D.C., and Lieut. A. H. Campbell, C.D.C., ushered the guests to pews marked with clusters of wedding bells tied with white tulle. Mr. Ian Galliford played the wedding music and during the signing of the register Miss Ruth Bawtenheimer sang the solo "Because."

A large number of guests were welcomed later at the home of the bride's parents, Lyall Street, pink snapdragons and white sweet peas gracing the reception rooms. Mrs. Parkinson received the guests in a gossamer blue model gown with tucked bodice caught with diamond clasp, wide brimmed hat and accessories in burnt straw shade, and was assisted by the groom's sister, Miss Helen Johnson, wearing a dirndl gown in pale blue net with chapel veil to match.

Refreshments were served from a table decorated with pink and white sweet peas, with lighted candles of palest pink in silver candelabra. The three-tier wedding cake, placed on the bride's table, was cut by the bride with her husband's sword after the traditional toast had been proposed by Major E. F. Allen.

Capt. and Mrs. Johnson left for a honeymoon at Harrison Hot Springs, the bride travelling in a dawn rose print frock, with natural linen accessories, matching off-the-face hat, and a pale blue topcoat, and a corsage bouquet of gardenias. They will make their home at 1235 Lyall Street on their return.

HILL-HARTE

At a quiet ceremony conducted by Rev. A. E. Whitehouse, D.D., in the Metropolitan United Church Parsonage Saturday evening at 8.30, Verna Yvonne, eldest daughter of Mr. and Mrs. Victor Harte, 1243 Johnson Street, became the bride of Mr. William Alfred Hill, only son of Mrs. J. Denoni, 71 Obed Avenue.

The bride, who was given away by her father, wore a redingote ensemble in two tones of blue, with a matching hat and corsage bouquet of Ophelia roses and swansonia. She was attended by her sister, Mrs. A. J. Painter, in a mauve floral sheer dress with a white picture hat trimmed with mauve flowers, and a corsage bouquet of Columbia roses and mauve sweet peas. Mr. A. J. Painter was best man.

Relatives and a few friends were later entertained by Mrs. Denoni at her home, the table being centred with the wedding cake, and pink and white carnations and matching tapers in crystal holders. During the evening Miss Elaine Harte sang "Through the Years" and "Because," accompanied by Mr. Albert Denoni.

For a honeymoon on the mainland, the bride left in a beige coat with fox collar, over her wedding outfit with blue accessories.

Mr. and Mrs. Hill will make their home in Victoria.

CORBETT-WILSON

At a pretty ceremony in the Salvation Army Citadel on Saturday evening Adjutant C. J. Milley solemnized the marriage of Florence Louise, only daughter of Mr. and Mrs. G. Wilson, 2708 Fifth Street, and Mr. William Cecil Corbett, son of Mr. C. W. Corbett, 495 Duplin Road, and the late Mrs. Corbett. Given in marriage by her father, the bride looked charming in a white satin gown with long sleeves and a sweeping train, and her fingertip embroidered veil was arranged beneath a coronet of orange blossoms. She carried a shower bouquet of Johanna Hill roses and pale pink carnations.

Mrs. William Webber, aunt of the bride, was matron of honor in mauve chiffon and the bridesmaids were her cousins, Miss Irene Nevison, in pink chiffon, and Miss Lillian Nevison (Fort William, Ont.) in blue. They all wore doll hats of flowers and net to match their gowns, and carried bouquets of pink carnations, white and mauve sweet peas. Little Lorraine Wright was flower girl in a long frock of white point d'esprit over pink, laced with pink satin ribbon, who wore blue and pink flowers in her hair and carried a posy of blue delphiniums and pink roses. Mr. Douglas Corbett supported his brother, and the ushers were Messrs. George Wilson and Wilfred Corbett. The church had been decorated by friends of the bride, and during the ceremony the couple stood beneath an arch of flowers. Miss Beatrice Roberts played the wedding music, and the soloist was Miss Eileen Wilkinson, who sang "O Perfect Love."

The reception was held in the K. of P. Hall, the young couple receiving under an arch of flowers. The supper table was covered with a lace cloth and decorated with vases of pale pink carnations and sweet peas, and lighted pink tapers in silver holders. Mrs. Wilson was dressed in "heavenly" blue with white accessories and a corsage bouquet of carnations and sweet peas; and receiving with her was the bridegroom's sister, Mrs. V. Hughes, in a dusty rose redingote ensemble with white accessories and roses.

The bride left for the honeymoon in Vancouver and Harrison Hot Springs wearing a blue and pink jacket dress, black and white accessories and a corsage bouquet of pink carnations and Rapunzel roses. On their return Mr. and Mrs. Corbett will make their home in Victoria.

Guests at the wedding included Mr. and Mrs. Corbett, Salt Spring Island; Mr. and Mrs. Tom Corbett, Mr. and Mrs. Joe Corbett, Courtenay, and Mrs. Aster, Vancouver.

CLOUGH-FANTHORPE

Syringa, delphinium, roses and spirea decorated the altar and chancel of St. Martin's-in-the-Field Church on Saturday evening for the marriage of Muriel, daughter of Mrs. E. E. Fanthorpe, 1036 Redfern Street, and the late Mr. Richard Fanthorpe, and Mr. Leslie Clough, son of the late Mr. Edward Clough, and Mrs. Clough, 17 Lotus Avenue. Canon H. W. G. Stocken performed the ceremony. Mrs. J. Gilbert presided at the organ, and during the signing of the register, Miss Myrtle Corkle, niece of the bride, sang "At Dawning."

The bride was given in marriage by her brother, Mr. Thomas Fanthorpe and wore a delphinium blue redingote ensemble with a small floral hat, white accessories and corsage bouquet of pink roses and sweet peas. Attending the bride were her sister-in-law, Mrs. T. Fanthorpe, in a bois de rose dress, and Mrs. Adrian Born, in blush pink, who were matching floral hats, white accessories and corsage bouquets of sweet peas in shades of pink and white carnations. Mr. Scott Dempster was best man.

The reception was held at the home of the bride's parents, during which the couple stood between baskets of flowers in front of the fireplace. The supper table was centred with the three-tiered wedding cake, with silver vases of sweet peas, and white tapers in silver holders. Mrs. Fanthorpe was dressed in rose printed crepe, a matching hat and black accessories, and Mrs. Clough was in beige, with a navy blue hat, and both wore corsage bouquets of roses.

After a honeymoon up-island and in Vancouver, Mr. and Mrs. Clough will make their home at 17 Lotus Avenue. The bride went away in a beige coat over her blue ensemble, with white accessories.

WILSON-WENDEN

In a pretty floral setting at St. Barnabas Church on Saturday evening at 8, Rev. Canon N. E. Smith united in marriage Margaret Esther Winnifred, only daughter of Mr. and Mrs. George S. Wenden, Glyn, Saanich, and Mr. Albert Edward Wilson, eldest son of Mr. J. F. Wilson and the late Mrs. Wilson, of 1224 Johnson Street, Victoria. Standard baskets of pink and white peonies and blue delphiniums, interspersed with palms, flanked the chancel steps, the decorations being arranged by the grandmother of the bride, Mrs. Philip C. Saunders. Small colonial bouquets of sweet peas and roses, tied with narrow satin ribbon, marked the guest pews.

The bride, given away by her father, wore an Empire gown of white stiffened net with long lace sleeves, and godets of fine lace in the full skirt, which extended to a slight train. Her double illusion veil was arranged over a coronet of hand-made petals and orange blossom, and her only ornament was a necklace of pearls, the gift of the groom. Her bouquet was of Ophelia roses and white sweet peas.

Miss Audrey Saunders was maid of honor in a gown of rose pink taffeta with turban to match, the veil applied with French flowers. She carried a bouquet of Johanna Hill roses, Maytime carnations and blue delphiniums. Mr. Harold Wilson, brother of the groom, was best man and the ushers were Mr. A. Lennax and Mr. Robert Luxton. Dr. J. E. Watson played the wedding music. Two hymns were sung, "We Lift Our Hearts, O Father" and "O Perfect Love."

A reception was held at the Dominion Hotel, Mrs. Wenden wearing a lavender blue dress, navy blue hat and accessories and corsage bouquet of Ophelia roses and white sweet peas, and Mrs. Wilson in a dress of navy blue net over printed silk and corsage bouquet of red roses, received the guests.

A three-tier wedding cake centred the refreshment table, which was decorated with orange blossoms and sweet peas and lighted

with tall tapers in silver holders. Mr. and Mrs. Wilson left for the mainland on a motor trip, the bride traveling in a Peabees blue travel tweed coat over a dusky pink dress, with matching hat and accessories, and wearing a corsage bouquet of Ophelia roses, white sweet peas and forget-me-nots. On their return they will take up residence in their new home on Burnside Road. Out-of-town guests were Mr. and Mrs. Stuart Yates, Langford, Miss Audrey Saunders, Vancouver, and Mrs. Barnes of Errington, V.I.

Admiral Boyes Here

Rear-Admiral Hector Boyes, C.M.G., who has been serving as naval attaché at the British embassy at Tokyo, is a visitor to Victoria today. He is registered at the Empress Hotel.

Admiral Boyes knows the Far East well, having served in the Boxer campaign of 1900. He was decorated with the C.M.G. for the part he played in the 1914-19 European war. He also received the Portuguese second class Order of Aviz. In 1924, he was lent to the Australian government as captain of the Flinders naval depot, and was senior naval officer in the Persian Gulf from 1927 to 1930. From 1931 to 1933 he was captain-in-charge at Simonstown, South Africa. Then he returned to England to become chief of staff and maintenance captain to the Commander-in-chief at The Nore. He retired with the rank of rear-admiral in 1934.

Dinner meeting of the Victoria Business and Professional Women's Club will be held Tuesday at 6.15 at the Douglas Hotel. Major J. P. Simon will speak on "The Far East in World Politics."

On Thursday Sholto Watt, Montreal Standard, will speak to Rotary on "Canada's Efforts to Aid Bombed Britain." The speaker was born at William Head, finished his education in England and was formerly European correspondent for the London Daily Telegraph.

Thursday the Lion's Club will discuss club activities.

25 Years Ago

JUNE 9, 1916

The German admiralty has at last admitted the loss of the battlecruiser Lutzow, 28,000 tons, in the Battle of Jutland.

A marked stimulus to recruiting and a general demand for internment of all aliens in Great Britain were the immediate results in Great Britain of the death of Lord Kitchener.

Dr. J. C. Davie returned last night from an extended trip to Europe, says the 25 years ago column today. He purchased a stock of surgical instruments in Berlin for the Jubilee Hospital.

The marriage was quietly celebrated at St. Andrew's Cathedral, by Msgr. J. J. Leterme, of Annie Eugene, eldest daughter of Mr. and Mrs. G. Longpre of Victoria and niece of Archbishop Billbeaux of St. Boniface, and Mr. W. J. Sullivan of Victoria. Attendants were Miss Pauline Longpre and Private Max Longpre of the 103rd Battalion.

Major-General Sir Sam Hughes is greatly pleased with the voluntary enlistment in Canada, and the possibility of conscription, or even national registration, is not being considered.

Rose Show Planned For Saturday

The show committee of the Victoria Horticultural Society is busily engaged in arranging details of the annual rose show, which will be held in the Crystal Garden Saturday.

This show promises to be one of the best for several years and the specialists of the city are getting their finest specimens ready for display. The weather lately has been ideal for roses and large entries, both in the individual classes and displays are expected.

In addition to the roses there will be classes for the district display, garden display, pot plant display and many others, covering every flower now in bloom, including sweet peas, delphiniums, lupins, iris, paeonies and lilies.

There will also be several classes for artistic arrangements, and also for early vegetables and fruits that are in season at this time.

Canada's People Provide the Tools and the Men for a Free People's Job

"Never in the history of war have eleven million people given so freely and pledged so fully their treasure, their resources and their manhood."

Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada.

RALLYING to the defence of free institutions, the Canadian people are putting forth the greatest effort in their history. Each day, Canada's war effort is costing her about \$4,000,000.

A quarter of a million of her sons are on active service; 175,000 more are enrolled in her reserve army. In ninety centres, the great British Commonwealth Air Training Plan is turning out airmen. For this direct war effort, Canadians will be called upon to provide during the next year about \$1,450,000,000.

Besides equipping and maintaining her own troops, Canada has become a major source of supply for Britain. An aircraft industry has been built from the ground up. Naval vessels, motor transport vehicles, universal carriers, machine guns, mortars,

bombs, shells and ammunition, chemicals, electrical and radio apparatus, base metals, alloys, steel, are pouring from Canadian mills and factories. Tanks, cargo vessels, field and naval guns, anti-tank guns, rifles, are on the way. It is planned to build destroyers.

To build or extend plants, capital advances of \$380,000,000 have been made by the British and Canadian governments. Britain will be provided in the next twelve months with some \$1,500,000,000 worth of munitions of war, raw materials and agricultural products. To help pay for this, Canada will furnish over \$1,150,000,000 in credits.

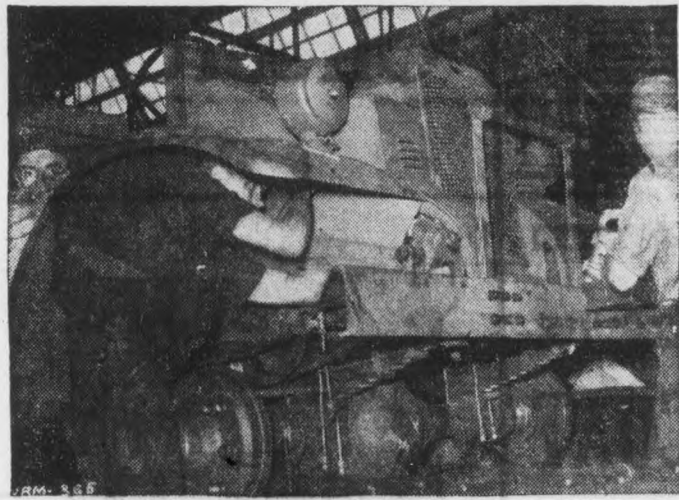

To do all this, Canada needs your savings ... **NOW!** Make your dollars work and fight for victory. Put them into Victory Bonds!

By PETE SALLAWAY

REACTION of the fans, fighters and certain officials after Friday night's surprising decision giving Vic Murdoch a win over Canadian flyweight champion Jackie Turner of Vancouver was comical. Majority of the customers figured the result was a foregone conclusion and many of them didn't even bother to wait for the announcement. We will wager several got the shock of their lives when they picked up the newspapers the next day and read the result.

Most stunned pair of the lot were Murdoch and announcer Lionel Speller. The latter seemed unable to believe his eyes when he looked over the judge's slips and for several seconds just stood in the centre of the ring and seemed at a loss for words. You could actually see amazement on his face. Murdoch, standing in his corner, turned around as if he failed to trust his ears when Speller called his name.

We are not trying to take anything away from Murdoch, but from this corner Turner won the fight. The champion had no big edge, mind you, but from the way we saw it there should have been no doubt in the mind of any judge as to whose hand should have been lifted. We don't think Murdoch appreciated the decision. Officials of the Victoria Club have no desire to get a "home town" reputation. They realize that out-of-town fighters will have no desire to come here for bouts if they figure raw deals are going to result.

Nice part of the whole thing was the manner in which Turner took the decision. Chatting to the clean-cut, likeable Vancouver boy in his dressing-room, he said: "It's just one of those things, and all I ask is a chance

for a return fight. I figure I won tonight but the judges ruled against me and there is little to say."

Heard quite a bit of criticism over the attendance at the fights. The card, one of the finest staged here in years, produced just about everything to satisfy the most critical of fans. The crowd was big enough to allow the club to break better than even, but was not of a size such a show warranted. "Tell the sports fans of Victoria they should be ashamed over such a turnout," one fan remarked. "They holler for some good fights and then stay at home when a card that is tops is offered."

The Victoria Club came in for some high praise from Jess Addinall, president and coach of the Vancouver Aries Club, who brought Turner over for his fight. "I want to thank the Victoria boys for the fine treatment accorded me during two visits to the city," he said. "I certainly admire the way in which these Victoria youngsters are working to put over amateur boxing. They deserve a lot of credit and should be given every assistance possible."

Addinall also informed us that steps are now being taken to organize the amateur fighters of Washington. "By next winter it will be possible for the Victoria club to line up the cream of Vancouver and Washington fighters for bouts here," he said. "I will bring over teams from Vancouver and the Victoria boys will be matched for return bouts on our shows. In my opinion amateur boxing in the Pacific northwest is headed for one of its greatest booms in years and I am glad that Victoria will be in a position to share in it."

Island Handicap Golf

Bill Cotton Wins

Bill Cotton, member of the Uplands Club, is the new men's handicap golf champion of Vancouver Island. In the annual tournament for the Jack Matson memorial trophy at the Colwood links yesterday, Cotton headed a field of 65 with a net score of 131 for the 36 holes. He had a gross of 177 and a handicap of 46.

J. D. Chanter and Frank Thomas, both from Colwood, tied for runner-up position with net scores of 136. Chanter had a gross of 164 and Thomas 152. Mel Vout, Uplands, defending champion, finished in fourth place with 137.

P. K. Lomax of Cowichan won the visitors low net with a score of 149. E. Wright, Colwood, Thomas and Bill Newcombe of

the Victoria Club, tied for the low gross. Bert Osborough was the winner of the low net for the first 18 holes with a net 67. Ed Cuppage, J. R. Davies of the Uplands and Thomas tied for low net second 18 holes with scores of 66.

Teams from the Uplands and Colwood clubs tied for the interclub shield with scores of 548.

CANCEL REGATTA

A sea that wouldn't stay still, and a breeze that was too brisk, forced cancellation of the regatta which was scheduled to be held Saturday afternoon in the Inner Harbor between crews from the J.B.A.A., army and navy. The event was to be staged for the entertainment of the crowd on the causeway while waiting for the Victory Loan parade. Rex Askey, J.B.A.A. coach, said that the rough water made it impossible to get the shells from the club boathouse to the harbor.

Lucky in Race Crack-up

An otherwise dull program of auto races at the 1941 opening of the Langford Speedway Saturday night was brought to a hair-raising finish when Joe Moore, local wild man of the asphalt, flipped his car over in midair, crashed through the outside board fence in the 30-lap main event and came out of it alive.

It was a miraculous escape from death for the local boy who was at the wheel of the No. 2 car, owned by Cammie Cameron. He was taken to Jubilee Hospital by St. John Ambulance attendants, suffering from severe shock, and bad bruises to the head and shoulder. Dr. E. L. McNiven attended him.

The top picture shows part of the curious crowd inspecting the smashed car just after it had been lifted off the injured driver. The broken fence can be seen in the background. In the second picture, first aid men examine Moore before placing him in the ambulance.

The crack-up occurred on the fifth lap of the big race when Moore was lapping Bob Brenton, New Mexico, on the north turn. Moore roared into the turn fast, went to cut outside Brenton, but mounted the visitor's right rear wheel.

He took off from there and went sailing through the air diagonally for about 20 feet. The car turned sideways in midair, the right side pointing towards the ground, and in this position went crashing through the fence, after which it landed upside down on the driver.

Moore was in second place when the crash came. He was manoeuvring to catch Lou McMurtry, Seattle, who started in the No. 1 pole position and finished the race in that spot. Only two other cars out of the eight which started the race finished. Second place went to Sid Holde-ridge, Victoria, and third to Buddy Green, Victoria, who stopped his car after Moore had crashed and then started again. Had he kept going he would have hit the second spot.

McMurtry made a clean sweep. He first equalled the track record of 18 seconds flat in the time trials. He was tops in the three-lap helmet dash over Jerry Vantreight, Victoria, and Seth Renning, Portland, and easily won the first heat race of five laps over Vantreight, Renning and Joe Moore.

Wood New Champ

FORT WORTH, Texas (AP)—The time has not come to take statistical stock of the United States open golf championship, won Saturday by Craig Wood of Mamaconek, N.Y., over the Colonial Club course here. However, officials of the U.S. Golf Association are amply satisfied with the experiment of bringing the blue-ribbon tournament to new territory.

Wood matched par for his closing 36 holes to post a winning 284.

Harold W. Pierce, U.S.G.A. president, never did get over his astonishment at the size of the crowds which turned out even on opening day Thursday.

"It's the closest thing I've ever seen to the golf interest in Scotland," Pierce said. "Over there men, even old women and mothers and babies in perambulators would line the dunes from early morning to well into the evening. These people were just about as enthusiastic."

The final gallery—100,000—

Ernie Spaulding, Seattle, won the second heat race, in which Vantreight's local No. 1 car, last year's No. 23 car, driven by Green, blew up, throwing a piston rod through the side of the engine. Moore spun out in this event.

Green, driving the local No. 6 car, won the third heat race, which had all the earmarks of a parade, with Moore in second place and Don Vantreight in third. Jerry Vantreight won a novelty pop race, driving No. 39, owned by Bud Nelson of Phoenix, Arizona. He also won the fourth heat race driving the same car. Brother Don finished second and Holderidge was third.

Chemainus in Double Victory

Chemainus ball tossers continued on their merry way at the head of the Victoria senior ball league by capturing a pair of games from Pitzer & Nex here Saturday, 9 to 8 and 15 to 10. Result was to bolster the up-island club's position with a record of seven victories and one defeat as compared to the second-place Eagles' standing of four wins and three setbacks.

Eagles will get a chance to move up tonight when they battle the Tillamook Athletics at the Athletic Park at 6. In their last meeting on Friday night the Tillamooks, last year's champions, marked up a 10 to 1 decision.

Saturday's games were interesting for the fans in only one respect, base knocks. The clubs treated the customers to some real heavy pounding with the stick, Chemainus driving out 18 hits during the exhibitions and Pitzer & Nex 24. Errors played a leading role in both games and each club was equally guilty, Chemainus being charged with 11 and Pitzer & Nex 12.

An eight-run scoring spurge in the third inning was enough to give Chemainus the afternoon fixture. Five errors by the local club were a big help to the visitors in their spree. Smythe and Berkey were on the mound for Chemainus with Ray Maitland working for Pitzer & Nex. Maitland struck out eight while the two visiting slab artists accounted for a like number between them.

Chemainus pulled the second game out of the fire in the eighth inning when they scored six runs while on the short end of a 10 to 9 count. Haley Jackson, on the mound for the up-islanders, smashed out a timely single to send in the tying and winning runs. Jackson had a big night, striking out 12. Ritchie Nicol and Lorne Murray hurled for Pitzer & Nex, the latter taking the box in the eighth.

BOXING PRACTICE

A practice of the Owl Drug box lacrosse team will be held at the Sports Centre tonight at 7.

Veteran Bartell Leads Giants to Double Win

Personally Hands Cards Twin Loss

Dick Bartell, the scrapping, chirruping little shortstop of the New York Giants, started against the league-leading St. Louis Cardinals in the first game of a National League double-header yesterday. He practically ruined the Cards singlehanded. He singled two runs home in the ninth inning of the first game as the Giants scored five times to tie the score, and then in the 10th he pounded 7 to 5. He clouted a double and a home run to win the contest, a single in the nightcap, which the Giants also won, 12 to 7.

The double defeat dropped the Cards into second place in the torrid National League race, despite the fact Brooklyn Dodgers were losing a single encounter to Cincinnati 3 to 2. The standing of the two leaders today was Brooklyn 688, St. Louis 680.

Pittsburgh Pirates hammered the Phillies 12 to 2 and then were set down by the Phillies' unpronounceable Johnny Podgajny, 5 to 2. Chicago thumped Boston Braves 5 to 1 behind Bill Lee's tight pitching, and then got slaughtered 13 to 1.

Over in the American League Boston Red Sox supplied the big news by bouncing Chicago White Sox twice, 5 to 3 and 3 to 0, and climbing into second place behind Cleveland's flying Indians. Old Lefty Grove won the 297th decision of his career in the opener.

Cleveland proved it could win without Bobby Feller as it set Philadelphia Athletics back twice, 7 to 4 and 8 to 6, and took a little firmer grip on first place.

The Yankees went on a home run rampage, with Joe DiMaggio blasting three, to subdue St. Louis Browns 9 to 3 in their first game and 8 to 3 in the second.

Washington fell on Dizzy Trout and Buck Newson for eight hits and seven runs in the sixth inning to scuttle Detroit 9 to 3.

COAST LEAGUE

A gruelling pitching duel, one of the longest and finest ever seen in San Diego's Lane Park, featured Coast League baseball games yesterday, and its results assisted San Diego to a second place berth in league standings.

Al Olsen, San Diego southpaw, pitched San Diego to a 3 to 2 victory over Portland's Ray Harrell in a 17-inning marathon game. Both went the punishing route with Olsen giving up nine hits and Harrell allowing but seven. George Detore, Padre catcher, singled to drive in Hal Patchett with the winning run. San Diego made it a clean sweep of the double-header, coping the second game 1 to 0. Bill

Oakland	26	36	.419

Salkeid's home run clout gave the Padres the winning run. Pitcher Larry Powell allowed the Beavers but one hit.

Tony Freitas pitched Sacramento to a 5 to 4 win over Seattle in the first game of their double-header, and won his own game by singling in the winning run in the eighth inning after two were on.

Nubs Kleinke, who lost a four-hitter earlier in the week to Seattle when Hal Turpin shut out the Solons, pitched another four-hit game to give Sacramento a 4 to 1 victory.

San Francisco, showing great promise a week ago by handing Sacramento its first series defeat of the season, staggered sorrowfully through the week's games against Hollywood, dropping the opener yesterday, 3 to 4 and winning the finale 1 to 0.

Los Angeles took both games of a double-header from Oakland 13 to 10 and 4 to 0, the finish of a week of see-saw fighting between the two teams to stay out of the cellar berth.

Brentwood Wins Cricket Match

VANCOUVER (CP)—Brentwood College scored a first-innings win over St. George's College in an all-day cricket match here Saturday, but with a little more time to play the result would have been reversed.

Bill Whittall scored nearly half of St. George's first-innings total, hitting up 35 by splendid batting. Alan Browne (37), A. W. Gillespie (27) and John McLean (13) made three-quarters of the Brentwood reply. Bowling honors went to John McLean in St. George's first innings when he took five wickets at a cost of only 10 runs, while Bob "Daisy" Greigg did even better in taking seven for 14 when Brentwood

batted. Ian Gillespie (three for 29) and Alan Browne (one for 8), also bowled well for Brentwood.

Going in a second time, St. George's hit up 72 for the loss of eight wickets and then declared, leaving Brentwood to make 60 for victory. Whittall (18), Bob Greigg (18) and John Newell (16) made most runs in this innings. Brentwood collapsed and had lost six wickets for only 29 runs when time arrived, being 31 runs short of victory with but four wickets to fall. Greigg again starred with the ball in sending back three batsmen at a cost of 13 runs, while Rod Munro, who took five for 59 in the first innings, came out with an analysis of three for 13 in the second.

Hit-and-run Car Puts 2 in Hospital

Two pedestrians, Molly Appleyard, 419 Powell Street, and Walter Meakes, 1653-A Fell Street, were taken to Jubilee Hospital at 10.50 Saturday night suffering from head injuries received when struck by a hit-and-run car at Johnson and Blanshard Streets.

Constables Arthur Rudge, Samuel McKenzie and John Mason of the city police force, were called to the scene by Joseph Lindall, who said he was walking with his wife ahead of Miss Appleyard and Mr. Meakes when he heard a crash.

He looked back and saw they had been struck by a car going east on Johnson Street as they were crossing from the south to the north side of the street.

The car, an old model, had no lights burning and continued up Johnson Street, going through a stop sign at Quadra Street.

Condition of Miss Appleyard was reported "fairly good" this morning, and Mr. Meakes was reported resting comfortably. Dr. Herman Robertson attended them.

At 11-15 Saturday night it was reported to city police that a basement room in the Breezy House, Pandora Avenue, occupied by J. M. Apperson, had been provided and a quantity of clothing, a leather club-bag and personal papers stolen. Detective Louis Callen investigated.

TOWN TOPICS

George Soper of the Argyle and Sutherland Highlanders, Nanaimo, was taken to military hospital last night with a cut in the back of his head.

Saturday's tag day netted the handsome sum of \$635.13 for the Oak Bay Red Cross Unit, which sponsored the collection. Capt. F. G. Dexter and Miss Curry convened the affair and wish to thank the many who assisted in tagging and the generous public.

Michael Gelling, 20-month-old son of Mrs. W. H. Gelling, 1209 Princess Avenue, received a bruised leg Saturday afternoon when his buggy, being pushed by his mother, was hit by a car driven by William Mills, Port Alberni, at Douglas and Johnson Streets, city police reported.

A large audience was delighted with the recital given by the Dunsmore Studio Girls' Choir of Nanaimo last Friday night at Fairfield United Church. Taking part in the program were Isabel Gould, Adele Dunsmore, Ninon Houston, Nadine Graham, Mary Rogers, Norman Jenkinson and Beverley Wilson. Hon. G. S. Pearson, Minister of Labor, acted as chairman. Rev. N. J. Crees expressed his thanks on behalf of the audience to the choir.

The city fire department extinguished a chimney fire at 1735 Kings Road at 8.53 this morning. The department also attended a bush fire on Oakshade Lane at 2.40 yesterday afternoon, a chimney fire at 625 Dunedin Street at 10.15 yesterday morning and a rubbish fire at Herald and Store Streets at 1.24 yesterday morning. Oak Bay firemen extinguished a grass fire after an hour's battle in the Uplands Saturday afternoon. Saanich firemen attended a chimney fire at 1220 Union Avenue yesterday.

Goey Duck Hunt To Be Filmed Here

As everyone knows, the Goey Duck is a ticklish customer to capture, but Lucien Roy, Associated Screen News cameraman, is going to show the movie public just how it's done.

He arrived in town Saturday to film the monster parade and filled in his spare moments arranging with Herb Shade, expert Goey Duck hunter, for a gruelling encounter on Sidney spit.

Lucien figures that a film record of a Goey Duck hunt in his native haunts would be an interesting feature in his "Did You Know That" "short" series, the Canadian counterpart of "Strange As It Seems."

He also proposes to go up-island shortly to film the famous Della Falls, higher than Niagara, for the entertainment of the theatre public.

W.M. Neal Directs C.P.R. Airlines

WINNIPEG (CP)—W. M. Neal, vice-president of the Canadian Pacific Railway, western lines, today issued a statement outlining the first actual participation by the C.P.R. in western airways operations. Mr. Neal is chairman of the advisory committee of United Air Service Limited, the railway company's recently formed and wholly-owned subsidiary.

"Under the first working agreement made at Edmonton, MacKenzie Air Service Limited, one of the firms now controlled by U.A.S.L., and Canadian Airways Limited, an independently owned company, have co-ordinated their services in the Sub-Arctic and Arctic field, and in the more southerly Edmonton-Prince Albert run," the statement said.

"These services will be operated on behalf of the owners by United Air Service Limited, with headquarters of operation in Edmonton, W. L. Brintnell of the MacKenzie Company has been appointed manager of U.A.S.L., with W. J. Windrum of Canadian Airways, as assistant manager."

"United Air Service Limited will be directed in matter of business policy by its advisory committee. This co-ordination of air services, with resultant savings, is in line with the present condition of wartime stress and demand for experienced air personnel and economic use of equipment. It has already been possible to make certain additions and improvements to schedule service in the north and further action along these lines is provided for as necessitated by traffic requirements."

Dave Shephard On Radio Again

Dave Shephard, former radio editor of the Times, and now with the Canadian forces overseas, broadcasted to Canada for the third time since he left almost a year ago.

He was heard yesterday morning at 8.30 over the CBC network playing his accordion with Loo Hooper's band, Dave, who gained much local fame with his talented handling of this instrument, so led with "12th Street Rag" and "Mountain Music," and with the orchestra played "Golden Slippers" and "Drink to Me Only With Thine Eyes."

Three Car Thefts

Island police were still on the lookout today for three cars stolen in Victoria and Nanaimo over the week-end.

The Victoria cars stolen belonged to F. M. Barber, 1010 Empress Avenue, and Clifford Thompson, 427 Pandora Avenue. Mr. Barber's car was taken from its garage Saturday night. Mr. Thompson's car was stolen from Broad Street outside the Chamber of Commerce early Sunday morning.

Provincial police reported a car owned by Joe Gallus, 716 Howard Street, Nanaimo, was stolen Saturday.

WINS THREE PRIZES IN VICTOR CONTEST

MISS P. VAN KLEECK

Miss P. Van Kleeck, of the Victor record department in Kent's Music Store on Yates Street, has made a clean sweep of all three prizes offered by the RCA Victor Company in a recent nationwide contest for Victor dealers. Miss Van Kleeck won the first prize in the sale of the greatest number of the new Victor albums of records for all cities of Victoria's class throughout Canada, for which the prize was 18 pairs of silk hose.

She also won first prize for the highest total sales in Canada during the period of the contest, for which she receives one of the latest models RCA Victorolas. The prize for the highest unit sale in all Canada, for which the prize is a de luxe portable Victrola, also went to Miss Van Kleeck.

Kent's, Ltd., were elated at the unusual success of Miss Van Kleeck, and point out that this is not only a tribute to the selling ability and service rendered by the lady in charge of their record department, but also a tribute to the discriminating musical tastes of the Victoria owners of Victor instruments.

Indian Woman Hurt

Mary Louie, an Indian woman of the Cowichan reserve, was taken to St. Joseph's Hospital from the C.P.R. wharf yesterday by city police, suffering from a broken arm and back injuries.

Sergeant Roy Woolsey and Constables John Lund and Douglas Buckle accompanied Dr. T. W. A. Gray, Dominion Indian medical officer, to the wharf, where an Indian woman was reported to be suffering injuries.

They found Mrs. Louie with her husband. The husband said his wife had received her injuries in a car accident in Washington, from where they had arrived in the morning on Ss. Iroquois. He wanted to take her to Duncan, but on advice of Dr. Gray she was taken to hospital here, as her condition called for immediate medical care.

**Explosion Toll
High in Smederevo**

ROME (AP)—The Stefani (Italian) news agency today reported several thousand persons killed or wounded when munitions stores in the Fortress of Smederevo, near Belgrade, exploded yesterday. Stefani quoted the newspaper Nemzetor Ujvidek as authority. Earlier reports had placed casualties at several hundreds.

The explosion, cause of which was undetermined, destroyed an "enormous" quantity of munitions and wiped out the castle fortress.

(Smederevo, in what formerly was Yugoslavia, is an important commercial town and departmental capital with a population of about 10,500. Surrounded by a wall, it is on the Danube and was used as regimental and artillery headquarters.

(The medieval castle, which the dispatches say was destroyed, was built in 1430 of red brick. It had 19 square towers and a built-in cross.)

Foochow Surrounded

HONGKONG (AP)—The Chinese Central News reported today that Japanese-occupied Foochow, Fukien Province capital, has been "virtually encircled" by Chinese forces. One body of Chinese troops already has made an incursion into the city and engaged the invaders at close quarters, it said.

Shipyard Strike

WASHINGTON (AP)—President Roosevelt and Harvey W. Brown, president of the A.F.L. Machinists' Union, discussed today the possibility of settling a strike holding up work on \$500,000,000 of defence shipping at 11 shipyards in the San Francisco Bay area.

There was an indication the President might have put some sort of proposition up to Brown.

He served in the same capacity at Calgary and Revelstoke and from 1907 to his retirement in 1913 was master mechanic in Vancouver.

**To Exhibit Children's
Nature Study Project**

An exhibition of nature study projects, made by pupils in some of the rural schools of districts adjacent to Victoria, will be opened in the Provincial Museum Wednesday, and will remain open to the public until June 19. The exhibition is being sponsored by the Society for the Preservation of the Native Plants of British Columbia, and shows the value of interesting children on the native flora and encouraging them to a constructive project in a world being torn asunder by destructive forces.

Movie Boom From Daylight Saving

LONDON (CP)—Double daylight saving time, introduced to help speed Britain's industrial war effort, has brought a golden prosperity harvest to London's show business.

In the first week it was introduced theatres, movies, dance halls and greyhound race tracks in and near the metropolis did their best business of the year.

Shows stayed open later, many putting on evening performances for the first time. A greyhound stadium which ran its first evening meet found it was filled to capacity long before the first race.

Movie and theatre owners reported full houses for final performances instead of half-empty auditoriums.

A dance hall manager said "before the new hours, the crowd used to fade away after about an hour's dancing. Now the floor is packed until the band plays 'God Save the King.' It is just about 25 years ago since daylight saving first became law in Britain.

William Willett was the man who first thought of it and campaigned for it until the government finally was persuaded to adopt it as a wartime measure in 1916. Riding over Chislehurst Common early one summer morning, in brilliant sunshine, he noticed the blinds in all the houses were drawn. It impressed upon him the idea that the best part of every day was wasted. The campaign began in Chislehurst itself. Willett persuaded the villages to advance their clocks 80 minutes in deference to his wishes. He wrote 19 pamphlets about it before the government decided to adopt it.

3 Killed as Plane Smashes Houses

KINGSTON, Ont. (CP)—A light bomber from the Norman Rogers airforce here glided through a boathouse at Seeley's Bay today, killed the pilot, a fleet air-arm student, and the two people in the boathouse.

The dead: W. McCulloch of Paisley, Scotland, an acting leading naval aviator; James Free, 59, of Seeley's Bay, and his 11-year-old grandson, Harold Batters of Oshawa, Ont.

Like a giant projectile, the plane smashed through a total of five boathouses before it plunged into the Rideau River. Seeley's Bay is 22 miles northeast of Kingston.

The plane flew low over Seeley's Bay, struck a high tension wire, knocked over a pole on the main street in front of the telephone office and then tore a corner off Bernard McAlonan's house.

After hitting the house, the plane bowled over the boathouses as if they were made of matchsticks.

Free, who was a guide and carpenter, was working on his boat, inside the boathouse, with his grandson, who has been visiting him since last December. They were said to have been instantly killed.

After crashing through the boathouses the plane hit the shore and wreckage was strewn on the rocks and on the shore. No trace was immediately seen of its occupants.

Urges Empire Cabinet

SYDNEY (CP)—The Sydney Morning Herald renewed its demand today for direct Dominion representation in the British cabinet.

The Herald suggested the war has reached a stage comparable to the first Great War in 1914-17 and urged wider sharing of responsibility for high strategy and more intimate consultation.

Though a full imperial cabinet may not be possible, the paper concluded, there is a clear need that one of the major Dominions, possibly in rotation, be continuously represented by a senior minister in London.

**Will Reclassify
Deferred Men**

WASHINGTON (AP)—United States selective service headquarters directed today the reclassification of draft registrants who have ceased to perform the jobs for which they were deferred and thus were "impeding the national defense program."

The action was announced by Brig. Gen. Lewis B. Hershey, deputy director of the system, at a war department press conference on the strike at the North American Aviation Company, Inglewood, Calif.

Although used to put out fire, water is itself a product of burning hydrogen.

**U.S. Disagrees
With Vichy**

WASHINGTON (AP)—The United States, it was learned reliably today, does not share the Vichy government's claims that the British and Free French attack on Syria was unjustified. This became known after a long conference between State Secretary Hull and the French ambassador, Gaston Henry-Haye, who expressed his "indignation" at what he called an "unjustified attack" on the French-mandated territory.

Survivors Rescued
RIO DE JANEIRO (AP)—The Agencia Meridional reported from Fortaleza late today that port authorities had received a radio message from the Brazilian ship Osorio saying she had picked up 11 men from the United States merchant ship Robin Moor, which was said to have been sunk May 21.

The Robin Moor, 4,999 tons, formerly the Exmoor of the American Export Line, was operated by the Robin Line of New York. She sailed from New York May 6 for Capetown, South Africa.

(A number of ships were reported sunk or damaged in storms sweeping the south Atlantic last month.)

The luncheon meeting of the W.A. to the Air Services will be held tomorrow at 2.30 in the Y.M.C.A. The annual report will be read, followed by election of officers.

OTTAWA (CP)—At the suggestion of Prime Minister Mackenzie King, members of the House of Commons opened today's proceedings with the singing of the National Anthem, on the occasion of the celebration in Canada of His Majesty's birthday.

Urges Empire Cabinet

SYDNEY (CP)—The Sydney Morning Herald renewed its demand today for direct Dominion representation in the British cabinet.

The Herald suggested the war has reached a stage comparable to the first Great War in 1914-17 and urged wider sharing of responsibility for high strategy and more intimate consultation.

Though a full imperial cabinet may not be possible, the paper concluded, there is a clear need that one of the major Dominions, possibly in rotation, be continuously represented by a senior minister in London.

'Ziegfeld Girl' at
Capitol Wednesday

Returning to vaudeville after more than 20 years proved too strenuous for Charles Winninger. After doing songs, dances, kicks and nip-ups with Judy Garland for a vaudeville sequence of "Ziegfeld Girl," Charlie retired to his dressing-room with such sore muscles that he had to have a massage before he could continue in the afternoon.

"What about those 'good old days' that you were always extolling to me," Judy kidded him. "Don't tell me that you can't take the good old days now that you've got them back again."

"Listen, Judy," answered the veteran comedian, "in those days there were seven of us in the act: my father, mother and five of us boys. We could take turns at dropping out and no one would miss us. Now I've got to handle the whole thing myself. And trying to keep up with you doesn't help any!"

Winninger appears as Judy's father in the new musical, opening Wednesday on the Capitol screen with an all-star cast featuring James Stewart, Miss Garland, Hedy Lamarr and Lana Turner.

'SAN FRANCISCO'
SHOWING AT YORK

W. S. Van Dyke, film director,
who has led motion picture com-
panies to all corners of the earth
and who has visited and lived
in most of the interesting cities
of the world, produced the hit
picture, "San Francisco," today
at the York Theatre with Clark
Gable, Jeanette MacDonald and
Spencer Tracy.

"San Francisco" ranks among
the most colorful cities," he says,
"because of its exciting past. It
was born on the mud flats in the
days of the gold rush. It is today
the only real cosmopolitan city in
the west.

GRACIE FIELDS

ON RIO SCREEN

Gangway for Gracie!

With a highlight of the film
showing the queen of comedy
on the continent singing and
dancing to a number called "I've
Got the Jitterbugs," Gracie Fields
flashed on the screen of the Rio
Theatre today in swing time.
The picture was her latest hilarity
hit, "Shipyard Sally," and a hit
it is.

The inimitable, hoydenish
Gracie sings a number of other
tunes in the film, all old favor-
ites such as "Annie Laurie,"
"Danny Boy" and others. For
when Gracie sings she puts a
song over like no one else can.

MUSICAL FARCE

AT OAK BAY

Offering the most tuneful
array of popular songs heard in
any recent motion picture, nine
new melodies are introduced in
"Argentine Nights," Universal
musical farce now at the Oak
Bay Theatre with the Ritz Bro-
thers and the Andrews Sisters.

Created especially for the pic-
ture by half a dozen of Holly-
wood's leading composers and
lyric writers, the new songs are
presented along with colorful
dances, streamlined comedy and
zestful romance.

'COUNTRY FAIR'

PLAZA FEATURE

The Duke of Paducah—more
formally known as "Whitey
Ford"—who is prominently fea-
tured in Republic's "Country
Fair," now playing at the Plaza
Theatre, is an old-time showman,
having been in vaudeville, medi-
cine shows, carnivals and dra-
matic tent shows for many years.

He was a radio veteran, hav-
ing started his radio experience
over Station KTHS intending to
be the leader of a nine-piece band
but winding up finally as a hill-
billy comedian.

"Country Fair" presents an all-
star cast including Lulubelle and
Scotty, Eddie Foy Jr., June
Clyde, Harold Peary (alias "Gil-
derleeve"), the Vass Family,
William Demarest, Guinn ("Big
Boy") Williams and Harold
Huber.

EMPRESS HOTEL

Drab Ships Hide Romance

By JACK BRAYLEY
AN EASTERN CANADIAN
PORT (CP)—A ring of armed guards, drab blotches of dirty-colored paint, a show of passes, steamship employees who "don't know a thing" and a maze of restrictions add up to a big headache for Canada's wartime ship news reporters trying to get stories from a port that is further obscured by a label dateline.

But on the other side of the solid guard of veterans, and behind the dirty grey paint lie more thrills and romance than ever put into Montreal or Victoria or Saint John in the glistening white and gold braid days of peacetime.

The war has changed all the spick and span efficiency of those easy days of passenger list hand-outs and long-heralded arrivals; of notables who talked freely and skippers who retailed minor adventures merely for the listening.

OFFICERS WARY

The pursuer who used to meet newsmen with a broad smile, a

ALL PACKED UP WITH NO PLACE TO GO—As the sale of the liner America to the U.S. Navy cuts its short career as queen of America's merchant fleet, vacations long-looked forward to come to a sudden end. Here disappointed pleasure-bound passengers pace the deck on which their baggage is piled high as the America docks in New York, called back from a Caribbean cruise for service as a troop transport.

passenger list and a helpful tip, now shrugs an apology and looks as though he were guarding the crown jewels.

But both passengers and crew, the strain of a hazardous ocean crossing behind them, are usually in talkative mood. And from them come the stories of adventure on the high seas. They recount chapters in the vital battle of the Atlantic, stories of running fights with raiders, of thrilling rescues and of tragedy.

Passengers, most of whom are on government business and in official capacities, come dribbling in by dozens on freighters bearing house flags which in peacetime represented the ultra degree of comfort in ocean passenger transport. Cabin class now means merely a secondary steel cell in the bridge-house which in peacetime afforded privacy to the second wireless man. The crew are doubled up and the passengers, less important in the voyage, are tripled up.

The freighters are shared out to the various lines to compensate for the requisitioning of their proud liners, now operating as armed merchantmen and troop transports.

And the British seaman has become a grim guardian. His face in the past bespoke free and easy tolerance. But that was before he was subjected to treacherous machine-gunning in an open boat and before he was fired upon while clinging desperately to a life raft.

SOME EXPERIENCES
Now he is angry. Take one chief steward of a passenger-carrying freighter. This normally mild-mannered and hard-to-ruffle Englishman was the very soul of calm and reasoned coolness until a few months ago. Yet it was he who the other day said:

"The gloves are off now. There was a time when we used to pick them (Nazi submarine and dive bomber crews) up, wrap them in blankets and give them hot drinks and smokes... treat them as we would expect to be treated

ourselves, but no more of that." And he whacked his fist on the companionway wall.

He told of seeing German gun crews shelling open boats and German Stukas spraying struggling seamen with machine-gun fire. "They have been given many opportunities, too many in my way of thinking, and they show no compassion. I'm not saying we should retaliate, although I've seen the Old Man have a time restraining his gun crew just recently, but when they come into our hands we'll have to treat them in future like the swine they are."

BRITISH SEAMEN'S WARTIME WELFARE

LONDON (CP)—Plans for the welfare of British sailors between voyages at North American ports have been put into action by two men who have just completed an eight-weeks' survey in that continent for the British Ministry of Shipping.

The two are Richard Sneddon, general manager of the Shipping Federation, and Charles Jarman, organizer of the National Union of Seamen. During their tour of Canada and the United States they discovered many seamen had to spend their time waiting for a cargo with nothing to do, no one to care about them and little money to spend. Before leaving America they helped to establish a nation-wide scheme to look after British merchant sailors until their ships were ready to sail.

A welfare committee was formed for British and Allied seamen in New York, American and British members were appointed with Sir Ashley Sparks, Ministry of Shipping representative in the United States, as its chairman. A complete floor of the skyscraper headquarters of the American Seamen's Church Mission was made available by the mission, said Mr. Jarman. "This is now being made into the most unusual seamen's club in the world," he added. "The whole place is a complete 'sailortown.' Run on the lines of a modern hotel, it has individual sections, fitted and decorated in their national style, for British, Polish, Belgian and Dutch seamen. They are looked after by staffs of their own country folk.

There are dental and medical clinics, advice and legal bureau. It is a centre for amusement where parties for hockey, baseball and boxing matches are arranged for them. Every port sending cargoes to Britain now has a welfare scheme for our seamen."

TWO CRAFT SUNK
LONDON (CP)—The Admiralty announced yesterday that the drifter Thistle and the trawler Evesham had been sunk.

Liner Escapes Big Dock Fire

JACKSONVILLE, Fla. (AP)—With smoke pouring across her decks, the \$1,500,000 liner Seminole barely escaped from her pier as a rapidly-spreading blaze swept the Clyde-Mallory terminals here yesterday and caused damage of approximately \$800,000.

Mayor George C. Blume, Detective Inspector E. L. M. Acosta, company officials and federal agents said the possibility of sabotage was being investigated today.

Police recently placed an extra guard over the entire waterfront area after receiving a tip that a sabotage attempt would be made during the Memorial Day weekend, but only the regular patrol and company guards had been maintained since then.

Today, however, Mayor Blume canceled police vacations and posted extra officers along the waterfront and at city utility plants as a precautionary measure.

Dredging Channel

Mariners are advised that the Dominion Public Works Department is at present dredging in the north arm channel of the Fraser River, B.C., south of Poplar Island from west of Lulu Island bridge to 20th Street. Log towers and other vessels are asked to co-operate by using as much as possible the channel north of Poplar Island, which is open for traffic with a minimum depth of nine feet immediately east of the old Poplar Island bridge. This will save considerable time on the dredging, obviating the opening of the pipe line.

Races Inconclusive
Races scheduled for the R.V. Y.C. commodore's cruise to Saanichton Spit over the week-end were inconclusive.

Motor boats, Class C cruisers and a couple of stars made the cruise, with Commodore Eric Pepler, in Yolanda II, leading the parade. The motor boats were scheduled to compete on the run between Cadboro Bay and Saanichton Spit, but the Lucy D broke down and the race petered out. Class cruiser race, also, was not taken seriously by the yachtsmen.

Several craft including the commodore's Yolanda, Lalongga, Wee Two and Davaar, had not returned this morning.

Picknicking was enjoyed with singing songs before huge beach fires at the spit.

BRITISH SINK 2 GERMAN SHIPS

LONDON (CP)—The Admiralty announced today two more supply ships for the German battleship Bismarck had been sunk, making a total of five supply ships and a trawler sent to the bottom in operations following the battleship's sinking.

The Admiralty said that as soon as it was learned the Bismarck was loose on a raiding expedition, a search was organized for the auxiliaries without which the battleship would have been unable to continue its activities for any extended period.

"These operations have been successful," the Admiralty said in announcing the further toll of supply ships.

No word has been given out as to the search for the cruiser Prinz Eugen, which accompanied the Bismarck and escaped when the battleship was engaged by the British fleet.

LONDON (CP)—An Admiralty communiqué said Monday: "As soon as it was known that the Bismarck and Prinz Eugen were endeavoring to break into the Atlantic, it was assumed that their object was an attack on our trade."

"Such an attack could not be maintained for any considerable time unless replenishments of fuel were available by supply ships. Consequently an ocean-wide search by all available cruisers and aircraft carriers was organized to cover those areas in which these ships were likely to operate."

"These operations have been successful. In addition to three supply ships and an armed trawler announced on June 6 as having been sunk, two more enemy supply ships have been intercepted and sunk. Operations of rounding up supply ships are continuing."

Dellwood Refloated

KETCHIKAN, Alaska (AP)—The Alaska Steamship Company's cannery vessel Dellwood was refloated yesterday. The United States coastguard office here said Capt. L. Jacobson had messaged that he needed no further assistance.

The Dellwood, en route from Seattle to Alaska cannery points, shoved 30 feet of her bow up on a ledge of Nicholas Rock in False Pass Saturday. A call for assistance said the 81 passengers had been taken ashore in cannery tenders.

Damage to the 320-foot vessel was not immediately estimated. The coastguard cutter Haida and cannery boats lighted off some of the forward cargo in order to free the Dellwood.

8 in Convoy Sunk

WOODS HOLE, Mass. (CP)—Back from ice patrol, crewmen of the coastguard cutter General Greene said survivors of a British ship told them that German submarines and airplanes wiped out eight of nine vessels in their convoy May 20.

The General Greene picked up 39 men of the crew of 80 of the 7,402-ton refrigerator ship Marconi about 270 miles southeast of Greenland six days later.

The survivors told a story of being shelled, apparently by more than one submarine, and then being attacked by airplanes.

GERMAN CLAIMS
BERLIN (AP)—The German high command claimed today that German bombers sank two merchant ships totaling 7,000 tons in raids during the night over British waters and pounded harbors on the English south and southeast coast.

Today's communiqué claimed the sinking of 31,500 more tons of "enemy merchant ships" by Nazi submarines.

New York List

NEW YORK (AP)—Buying of industrial "blue chips" and specialties kept the home fires burning in today's stock market.

While gains of fractions to 2 points or so were shown for favorites at the close, utilities and a number of other groups inclined to lag. Transfers approximated 425,000 shares.

Renewed strength of most commodities, especially wheat and cotton futures, helped lift speculative spirits. At Chicago wheat finished up 1 to 1 1/2 cents a bushel, but corn slipped 3/4 to 1 1/2. Cotton, in late trades, was up 45 to 75 cents a bale.

Prominent stock movers on the upside were Du Pont, Eastman Kodak, Allied Chemical, Westinghouse, Grumman Aircraft, U.S. Steel, General Steel Castings preferred, Caterpillar Tractor, Chrysler, Great Northern Iron Ore Certificates, International Paper preferred, Patino Mines, Chesapeake Corp. and Union Pacific.

Laggards included Jones and Laughlin preferred, a brisk climber of last week, U.S. Gypsum, Public Service of N.J. and Texas Corp.

Canadian issues were mixed. McIntyre lost 1/4 and Lake Shore 1/2, while Distillers gained 1/4.

NEW INVENTION TO STOP SUBS

DETROIT (AP)—Charles F. Kettering, a leading American inventor, predicted at the week-end that German submarines would be driven from the seas by development of a device to catch them on the surface at night.

The engineering genius who gave the automobile industry the self-starter, expressed a belief that the anti-submarine device would be completed and in operation "within a reasonable time."

Kettering also said the problem of interception of night bombers "is being licked now" in Britain by detection devices "now in production."

Make New Effort To Work Tye Mine

The Tye Mining and Smelting Company has been formed for the purpose of financing and building a flotation mill at Chehalis, with a daily capacity of 100 tons, to mine and mill ore from the Tye Consolidated Mine of Mount Slicker, Vancouver Island, on which a lease has been arranged.

Officials of Tye Mine report estimated tonnage available at 125,000. The ore contains gold, silver, copper, zinc, lead and barite. A large percentage of gold will be saved for bullion and concentrates of other metals will be shipped to different smelters.

To raise \$75,000 to finance building and equipping of the new mill, the company will issue notes to be paid out of the first production. With each \$1,000 note a bonus of 10,000 shares will be given.

No Dividend Yet On East Kootenay

MONTREAL (CP)—East Kootenay Power Company reports net earnings of \$389,927 for the year ended March 31, 1941, compared with \$344,380 in the preceding year. Balance after interest payments of \$269,839 was given as \$210,088, compared with \$68,389.

Gross earnings for the year rose to \$607,595, compared with \$554,223. The net balance of \$120,088 was applied to depreciation, leaving profit at nil, the same as in the preceding year.

In his report to shareholders, President A. J. Nesbitt stated the company's production increased 10 per cent during the year to 106,757,020 kilowatt hours, but added that "the company is not able as yet to resume dividends on the outstanding 7 per cent cumulative preferred shares."

New Commander Of British in Egypt

LONDON (CP)—Lt. Gen. Sir James Marshall-Cornwall has taken command of the British forces in Egypt, under the supreme Middle East Command of Gen. Sir Archibald Wavell, the War Office announced today.

This is the command occupied by Gen. Sir Maitland Wilson last winter before the offensive in Libya.

The War Office announcement said the troops under Gen. Marshall-Cornwall are "a component part" of Gen. Wavell's command.

Gen. Marshall-Cornwall, 54, is an artillery specialist.

Englishman on Motorcycle Ran Into Gaur Bull

Years ago I saw a moving picture of special interest. The scene was laid in jungles of southeastern Asia, and showed the struggle which goes on among the wild animals.

The thing I found most interesting in that picture was a fight between a tiger and a water buffalo. The buffalo was tied to a stake by a long rope, and was grazing when it was attacked. Quickly it swung its head from side to side. With its sharp horns, it struck and killed the tiger.

Tigers usually can win fights with water buffaloes. They can spring from ambush and catch the larger beast from behind the head. If, however, they fight from the front, they are in great danger from the sharp, fast-moving horns.

Water buffaloes belong to the cattle family. They were given their name because they like to lie in the water of marshes, pools and streams during hot hours of the day.

Many water buffaloes run wild in India. Others have been tamed and are used in plowing and for other purposes on farms.

Water buffaloes are seldom more than five feet high at the shoulders. They are not such big animals as other cattle—the gaur—which also are found wild in India.

Gaur bulls are among the giants of the cattle world. Often they have a height of six feet at the shoulders.

The horns of a gaur bull are large and strong. They are six or seven inches thick at the base, and a pair of them may spread out three feet.

Efforts to tame the gaur have met little success. The big animals like their freedom, and it is dangerous for men to try to keep them as they would common cattle.

A young Englishman was riding a motorcycle along a road in India one evening when he saw what at first seemed a dark shadow. In a second he struck a large object, a gaur!

The Englishman was hurled into a ditch. When his senses came back to him, he found that the gaur bull was attacking his motorcycle, and was turning it into a worse wreck. He hid in the ditch until morning; then, after the gaur had gone away, he walked back to town.

THIS CURIOUS WORLD

Dorothy Dix's Letter Box

DEAR MISS DIX—We are two high school boys in love with two very charming young girls, but after wasting three perfectly good high school years trying to find out the right ones we feel that they do not make the proper response to our show of affection as, when we try taking them in our arms and kissing them, they refuse on the ground that they do not care to be kissed by every Tom, Dick and Harry who comes along. We believe that these girls are wrong about that, as all we ask is that when we finally get up enough nerve to undertake this amorous advance that the young ladies should respond in the fashion depicted in the best circles of tradition, and accept our declarations of affections graciously. And so, Miss Dix, we just want to know: Are we justified, or are we scoundrels? THE VERY PUZZLED LADS.

P.S.—Our morals and reputations are of the very best. Answer: Certainly you are not scoundrels. You are only love-sick lads in the throes of your first serious heart attack, and it is perfectly natural that you should want to kiss the objects of your current affections. Even a he-saint might feel that way about a pair of ruby lips.

But, while it is also natural for you to resent the girls' not responding in kind to your affectionate impulses, don't you feel a lot of respect for them for doing so? For, after all, it does make a girl seem mighty bedraggled and second-hand if she has made her lips free to every boy who came along. DOROTHY DIX.

Churchmen's Support

Four leading churchmen of Canada made appeals to the nation on behalf of Canada's Victory Loan.

The occasion was "Victory Loan Sunday," and the speakers, whose addresses were carried over a national network of the Canadian Broadcasting Corporation, were RODRIGUE CARDINAL VILLENEUVE, MOST REV. D. T. OWEN, primate of the Church of England; REV. J. B. SKENE, moderate of the general assembly of the Presbyterian Church in Canada, and RT. REV. AUBREY S. TUTTLE, moderator of the United Church of Canada.

Cardinal Villeneuve said every effort to win the war was also a means of serving the church and Canadians should subscribe to the bond issue "so that God be glorified."

"I consider that everyone should deem it a national duty to subscribe generously to this loan, which is moreover a sound investment in interest-bearing bonds," he said.

Bishop Owens said: "What is at stake is what we call 'our way of life,' the way of free men to work out their destiny, to think and speak, to do those things which they believe under the guidance and grace of God."

"I call upon all who value these things, and would have them survive among us, to rise in their strength, to respond to their country's call, in order that Canada may continue the fight for the survival of freedom and truth in the world, until victory comes."

Were the loan a mere financial investment, said Mr. Skene, "I should not, as a churchman, concern myself with it."

"But this emergency has to do with much deeper things than the safety of our own skins, the security of our own homes, lands and goods, important though these things may be," he said.

"...A paganism, ruthless, naked, unashamed, has gone on a fearful rampage, leaving bombed churches, ruined cities, devastated countryside, desolated homes, dead and maimed children in the streets and only our money will provide the means whereby this mad adventure may be stopped and rendered impossible again."

A victory for the totalitarian powers, said Mr. Tuttle, would mean the end of Christianity, but would "cramp and cripple any practical expression of our faith."

"We see in the triumph of totalitarianism not the final defeat of the Christian faith," he said. "The Christian faith as a personal possession does not depend ultimately upon the threat of any political or economic or military domination."

Royal Dutch Reunion

OTTAWA (CP)—A royal reunion took place yesterday in the pantry of an unpretentious, suburban Rockcliffe home when PRINCE BERNHARD of the Netherlands arrived unexpectedly from the United Kingdom for a brief visit with PRINCESS JULIANA and their two small daughters.

After a trans-Atlantic flight, the Prince reached Ottawa unheralded, Princess Juliana was in the pantry preparing breakfast for the children when he walked into the house. Not even the Princess knew he was coming.

Authoritative quarters said no political significance is attached to the visit, which they said is entirely a meeting between husband and wife. The Prince intends to return to London in a few weeks.

A few hours after his arrival, the Prince had left the capital on a journey to the United States which had already been planned by the Princess and which will include visits to Holland, Michigan, Boston and Princeton, N.J. The royal couple expect to return here June 17.

The Prince left the United Kingdom by plane Saturday and arrived in Ottawa at 9 yesterday morning.

'We Will Triumph'

MAJ.-GEN. L. R. LAFLECHE, associate deputy Minister of National War Services, called on Canada's workers to add to their daily prayers: "Canada is at war, I must do today my full share and my best."

"Because the labor of the worker keeps its individual character in the collective effort (of the nation), his responsibility towards those who fight for him

in foreign territory is so much heavier," he told a theatre gathering near the end of day-long ceremonies organized in his honor by La Federation Des Femmes Canadiennes-Francaises.

"The worker must be a true patriot," said the general. "The workers must be the anonymous and obscure hero of this gigantic struggle which free man is waging for his survival. It is by the energy and the persevering devotion of the workers that we will triumph."

"As a nation, Canada is young," he said. "Our men are virile and resourceful. The recent severe reverses, for such they are, challenge the manhood that is in us."

"So far, we have been outnumbered and outequipped—we have suffered defeat after defeat. Not so is a war won. We must gain victories, we must win battles and campaigns to win this war."

"I can feel the growing seriousness of the Canadian mind and soul. Our resolution is crystallizing rapidly. We are achieving a will to win. This will to win is growing not only in any one part of Canada, but everywhere."

"Fight or Fall"

LORD BEAVERBROOK, British Minister of State, said in a broadcast to Canada the time approaches when Germany will try an invasion of Britain, and that "on this island we must fight or fall."

"Over here we must expect before long to fight for our liberties and our lives, and when that day comes there must necessarily be a vast interruption in our capacity to manufacture weapons for our own defence," he said.

"I do not know when the invasion will come. . . . Every man must be martialized ready for desperate resistance; every gun and tank must be mobilized; every airplane must be ready to fly."

"But from you we want a great deal," he told Canadians. "We want the implements we need for the struggle. We want the tanks and ships and airplanes."

"We want all that your industries can provide for our battle line. All the strength that you can supply will not be too much for our needs; but we want something more than the tanks and the airplane. We want money to pay for them and the men to handle them. . . ."

"All this we ask of you. It is a great deal. It is more than we have a right to expect from you. Far more. Still, we ask it. For we know it is our intention to confer on humanity benefits that will save the world from destruction."

London's youngest air raid hero, Freddie Harrison, has been presented with a cheque for \$4.15, gift of the Vimy post of the Toledo, Ohio, Canadian Legion. The six-year-old rescued a baby sister from a bombed-out bedroom and returned to another sister.

In August, 1912, a single day's rainfall in Norfolk county, England, amounted to 670,720,000 tons of water.

COWICHAN LAKE LANDSCAPE—Max S. Maynard's much-discussed painting which won the 1936 Beatrice Stone Medal at the Vancouver Art Gallery, and which is now a feature of the Red Cross exhibition of modern British Columbia art at 504 Fort Street. This example of Maynard's work is rather sombre in mood, but has a strong lyrical rhythm of line that relieves the bleakness of the subject.

VICTORIA WEST UNIT

At the final business meeting of Victoria West unit held in Victoria West school, an interesting report of the work accomplished by the girls of grades 7 and 8 was read.

These girls have worked during a period of school hours each week and in addition have taken work to their homes where they met in groups. As a result of this effort 9 knitted afghans and 4 knitted baby blankets have been turned over to the unit. In addition to these, 10 scarfs, 13 pairs of socks, 5 baby garments and several dozen face cloths have been completed.

This work was carried out under the supervision of Mrs. H. Shandley and will continue through the summer months. The members of this unit will continue to work during the holiday season, meeting at the homes of the committee.

Now used mainly for timing soft-boiled eggs, the sand hourglass once was a popular method of ascertaining time.

North Shore Gains Cup Soccer Final

VANCOUVER (CP)—It will be Radials against North Shore United in the Province Cup finals, with the first game of the best-of-three series billed for Saturday at Con Jones Park.

North Shore earned the right to meet the street railway eleven for the silverware by a deserved 3 to 1 win over St. Saviours in the last of the semifinals Saturday afternoon before a crowd of 900 people.

There was no dispute as to the "Reds" being the better footballers, but a hotly-contested second goal they secured took all the fight out of the Saints and made things easy for the ultimate winners, as well as getting Referee Alex Murray in wrong with the crowd.

Albions, Fathers Cricket Winners

In cricket matches played Saturday the Albions defeated the District Depot 125 for seven wickets declared to 37 while the fathers won over the sons 70 to 51 in the 23rd annual fixture arranged by St. Michael's School.

Feature of the Albions' innings was a smart 46 by Les Gibbons and P. D. Freeman's 18 not out. The District Depot batsmen were helpless against the fine bowling of the Albions, Burns with 16 being the only man to reach double figures. For the Albions the veteran E. D. Freeman took four wickets for only nine runs.

The school match saw Pudney, skipper of the father's side put on 34 runs before being caught out. His score was the only one in double figures. W. Wells topped the school side with 17 runs.

Bowling for the fathers, Brimblecomb took five wickets for 24 runs and Mangin captured three for 15. Young was the top bowler for the sons with three wickets for eight runs.

During the interval tea was served in the grounds of Mrs. A. Woodcroft kindly placed at the disposal of the team for the purpose.

JUNIOR TENNIS COACHING CLASSES

Vancouver Island and Gulf Islands District Lawn Tennis Association officials have announced they are completing plans to again sponsor coaching classes open to boys and girls of 18 and under. Last year the classes were not run, owing to drastic financial curtailment due to the war.

They will be patterned along

the lines of the coaching system used in 1939 and years previous. Coaching classes for the Victoria district will be entered at the Victoria Lawn Tennis Club, but the association is prepared to sponsor classes in any district where the enrollment is sufficient to warrant a class. All entries must be filed on or before June 20 at Hocking and Forbes, 1006 Douglas Street.

These classes were started in 1936 with an enrollment of 50, proving so popular that by 1939 the number had gone up to over 400.

Zeke Bonura to Join U.S. Army

MINNEAPOLIS (AP)—Zeke Bonura is doing a Hank Greenberg and storing his bag bat for a real war-club.

He's been called in the draft and refuses to seek deferment. His loss to the minors is easily what Hank's was to the majors, for Zeke has been setting the American Association afire.

Bonura, stepping down a peg or two after a slugging career in the American and National Leagues, played so well with Minneapolis that he, said, he got two offers to return to the big show and he rejected both because of his happiness here and the imminence of the draft call.

Checking out yesterday to visit his folks in New Orleans before reporting for army duty June 19, Bonura was feted by the ball clubs and by individuals. He helped the Millers lead the league. He hit around .300 most of the short season and his fielding average was .991. He figured in 36 double plays and had 28 assists for 45 games. Among his hits were two homers with the bases filled.

Pansies are named for "thoughts," their name coming from the French word "pensee," meaning to think.

Triple Crown To Whirlaway

NEW YORK (AP)—Having run around them in the Kentucky Derby and through them in the Preakness, Whirlaway tried a new way in the Belmont Stakes Saturday and won just as easily.

Before 30,801 fans who crowded Belmont Park, the chestnut cannonball from the Blue Grass completed his "triple crown" conquest by running from the front end of the field for a full mile of this mile and a half classic, and bounced home three lengths to the good.

"Whirly" always had let the other fellows cut out the pace, coming from far back in both the Derby and the Preakness.

Robert Morris, from the stable of J. Fred Byers of Pittsburgh, made one run at Whirlaway, halfway through the stretch turn, but all it did was give him second place. Sonny Whitney's rank outsider, Yankee Chance, was third, eight lengths back of the winner, and Itabo was a distant fourth.

Fred Perry Wins

NEW YORK (AP)—Fred Perry added the three-day round robin tennis tournament to the "world" professional championship he recently won at Chicago when he stormed through to a 6-4, 6-2, 6-3 victory over Don Budge before a crowd of 7,500 at the Forest Hills stadium yesterday.

Before the Budge-Perry match, Dick Sken, 35-year-old Hollywood, Calif., pro, gave Bill Tilden his third straight defeat, 6-1, 7-5, 6-3.

This is the POST CARD that Employers must FILL IN and MAIL

All Employers

Of Insurable Persons Must Register Prior to June 14th, 1941 . . .

The first duty of every employer is to register by filling in and sending the official Postcard to the Unemployment Insurance Commission through his local Post Office. A form containing the postcard has been mailed to employers. If you have not received one, apply to the nearest Post Office.

Contributions to the Unemployment Insurance Fund are payable from July 1st, 1941.

Contributions are made by the purchase of Unemployment Insurance Stamps by the employer from the Post Office.

These stamps must be affixed to a special book issued by the Commission, for each employee, which is called "The Insurance Book."

The employee's share of the contributions will be deducted from the employee's wages by the employer, who adds his share, using a stamp for the total contribution.

The Dominion Government adds 20% to the combined employer-employee contribution, and in addition, pays the administration costs.

If you desire any further information please seek it early through your Postmaster—because compliance with the Canadian Unemployment Insurance Act is compulsory.

Employers must complete registration prior to June 14th, 1941.

HON. NORMAN A. McLARTY, Minister of Labour

THE UNEMPLOYMENT INSURANCE COMMISSION, OTTAWA, CANADA

TABLE OF WEEKLY CONTRIBUTIONS AND BENEFITS

Class	EARNINGS IN A WEEK (or under 16 years of age)	WEEKLY CONTRIBUTIONS		WEEKLY BENEFITS (if in same Class for 2 years)	
		By Employee	By Employer	Single Person	Person with one or more Dependents
0	*Less than 90c daily (or under 16 years of age)	—	27c	—	—
1	\$1.40 to \$7.49	12c	21c	\$4.08	\$4.80
2	\$7.50 to \$9.99	15c	25c	\$5.10	\$6.00

*While no benefits are payable to workers earning less than 90c a day, or while they are under 16 years of age, neither do such workers, themselves, contribute to the Insurance Fund. The payments made on their behalf, however, make them eligible for benefits on the basis of their complete insurance record just as soon as they become 16 years of age, or if less than half the number of the contributions made in respect of them during the one year immediately preceding a claim for benefit are at the lowest rate of contribution. (See Table to the left).

In every case the daily rate of contribution and benefit is one-sixth the weekly rate.

Discussed Affairs in Pacific Area

Four widely-known experts on Pacific affairs, who met with other delegates to the Northwest Conference of the Institute of Pacific Relations here over the week-end, are shown above. Left to right, Prof. George Taylor, head of the department of Oriental affairs at the University of Washington; Edwin C. Carter, general secretary of the Institute of Pacific Relations; C. K. Morrison, provincial librarian, and Dr. H. W. Riggs of Vancouver. Delegates opened their sessions Saturday, and held an informal dinner in the Empress Hotel Saturday evening at which H. G. Wyatt of Victoria and H. B. Kaizer of Spokane acted as chairmen, and Mr. Carter, Prof. Taylor and Dr. Munroe Deutsch, vice-president of the University of California, spoke. The conference ended yesterday afternoon.
